Introduction to InsiderLens IFCo

IFCo is a software solution designed by Axar to ensure compliance with the requirements of SEBI (Securities and Exchange Board of India) (Prohibition of Insider Trading) Regulations 2015 (Herein after PIT) pertaining to Insider trading. It is a web- based application which helps the Compliance Officer to follow the PIT Regulation adequately.

IFCo creates and maintains a Structured Digital Database (SDD) which is non-tamper able, highly secure and provides the Compliance Officer with an audit trail of all transactions. IFCo also serves the purpose of maintaining Unpublished Price Sensitive Information (UPSI) and insiders' details electronically. From July 17, 2020, SEBI made the Structured Digital Database (SDD) requirement, under the Prohibition of Insider Trading (PIT) regulations, 2015, mandatorily applicable to Intermediaries (regulated by SEBI, including Banks, Insurance Cos, Brokers, etc) and Fiduciaries (such as Statutory and Secretarial Auditors, Solicitors or Legal advisors, Management Consultants, etc).

Compliance Officer (CO) can be said to have complied with PIT Regulations by using InsiderLens IFCo. The solution also helps Compliance Officer in generating various required reports. Activities like Alert for Window Closure to all Designated Persons, recording of declarations by Designated Persons (DPs), reporting of trades and disclosures etc., are facilitated through the solution. The solution also has data encryption for ensuring database security.

Features:

- Alert for Trading Window Closure (TWC) to all Designated Persons.
- Keeping record of declarations by Designated Persons (DPs).
- Easy reporting of trades and disclosures.
- Timely alerts and reminders to prevent insiders from trading violation of the Regulation.
- Keeping track of trade intimation and trade requests.
- Providing authentication (data encryption) to ensure database security.
- Generates various reports such as Periodical Disclosure Report, Deviation Report, UPSI shared Report, Connected person and Designated person Report etc.
- Audit Trail and Time Stamping is maintained of every action performed in the application.
- Database cannot be tampered.

Advantages:

- Ensures compliance with the requirements of SEBI (PIT) Regulations, 2015, updated till July 17,2020.
- A web-based application that helps the Compliance Officer (CO) in: -
 - Maintaining the records of trading done by Designated Persons (DPs).
 - Facility to attach pre-clearance approvals for trading if required.
 - Sending notifications for Closing and opening of Trading Windows.
 - Alerting insiders to prevent them from trading during possession of UPSI.
 - Nature of UPSI is captured along with date and time.
 - Recording the activities of Connected Persons (CPs), Immediate Relatives (IRs), and Material Financial Relationships (MFRs) who may have access to Undisclosed Price Sensitive Information (UPSI), about trading of Company securities.

Getting Started

IT Infrastructure Prerequisites

The InsiderLens system is installed on the company premises. A server with the following specifications is a minimum requirement for 1 instance.

The I.T. infrastructure pre-requisites for implementing InsiderLens are:

Server Hardware (Minimum requirements)

- Processor: Quad Core
- RAM 8 GB
- 2 x 3.5" SAS (15K RPM) 300GB (up to 20 thousand documents of 5MB average size)
- RAID Controller
- HDD Partitions:
 - RAID 1 or RAID 5
 - C Drive: 100 GB
 - D Drive: Remaining out of 300GB
- Uninterrupted Power Supply
- DVD Writer, Monitor, Keyboard and Mouse

License Software for Server (Minimum Requirements)

- OS: Windows Server 2012R2 64-bit Standard Edition
- Database: MS SQL Server 2012 Express Edition or higher
- Server Antivirus software
- Team viewer or Any Desk or Ultra Viewer for remote installation and configurations
- SSL Certificate for secured Internet (Optional. As per your organizations security policy)
- MS Office 2010 Standard Edition 32-bit or higher

Client Machine Specification

- Any PC with 4 GB RAM
- IE (Internet Explorer) 11.0 or higher version browser/ Google Chrome latest version/
- Mozilla Firefox latest version

Network Bandwidth

- Intranet: 100 Mbps LAN.
- Internet: Dedicated 2 Mbps speed to bear load of less than 15 simultaneous users

Types of users

The InsiderLens IFCo system is primarily designed to be used by 2 types of users namely - the Compliance Officer and Designated Persons.

Compliance Officer (CO)

The Compliance Officer is responsible for legal and regulatory compliance under SEBI (Prohibition of Insider Trading) Regulations, 2015. She/he is responsible for compliance of policies, procedures, maintenance of records, monitoring, and preservation of Unpublished Price Sensitive Information (UPSI), monitoring of trades and implementation of the codes specified in the regulations.

The Company Secretary of the Company or any other senior officer is designated by the Board of Directors to serve the above-mentioned purpose. The so-designated Officer is called Compliance Officer for these regulations. (Here after Compliance Officer is referred as CO)

Designated Person (DPs)

Under the SEBI (Prohibition of Insider Trading) Regulations 2015, Designated Person means any Promoter, Director, Senior Management Official etc. as defined under the Code of Conduct framed under these regulations by the Company. Whoever, so defined under the Code, would be termed as Designated Person for these regulations. (Hereinafter Designated Person is referred as DP)

Designated Person (DP) mostly includes the following:

- ✓ All the Directors on the Board of the Company, all Directors of the Company's subsidiaries, and associated entities.
- ✓ The Promoters of the Company include the members of the Promoters' Group.
- ✓ All specified Employees of the Company, its subsidiaries, and its associated entities.
- ✓ Such other person or persons as the Compliance Officer may specify to be covered as DP under the Company's Code of Conduct under these regulations.

There are a few more User Roles given in the software which are Secondary approver and UPSI originator.

UPSI Originators

UPSI originator is a role assigned by Compliance Officer to any Designated Person (who is already added as User in the software), who is in possession of UPSI and wishes to report the same in the software. The user with UPSI Originator role would be able to add any UPSI details in his/her possession and report the same to Compliance Officer. While adding, the person will also be able to mention the name of other persons with whom such UPSI details are shared.

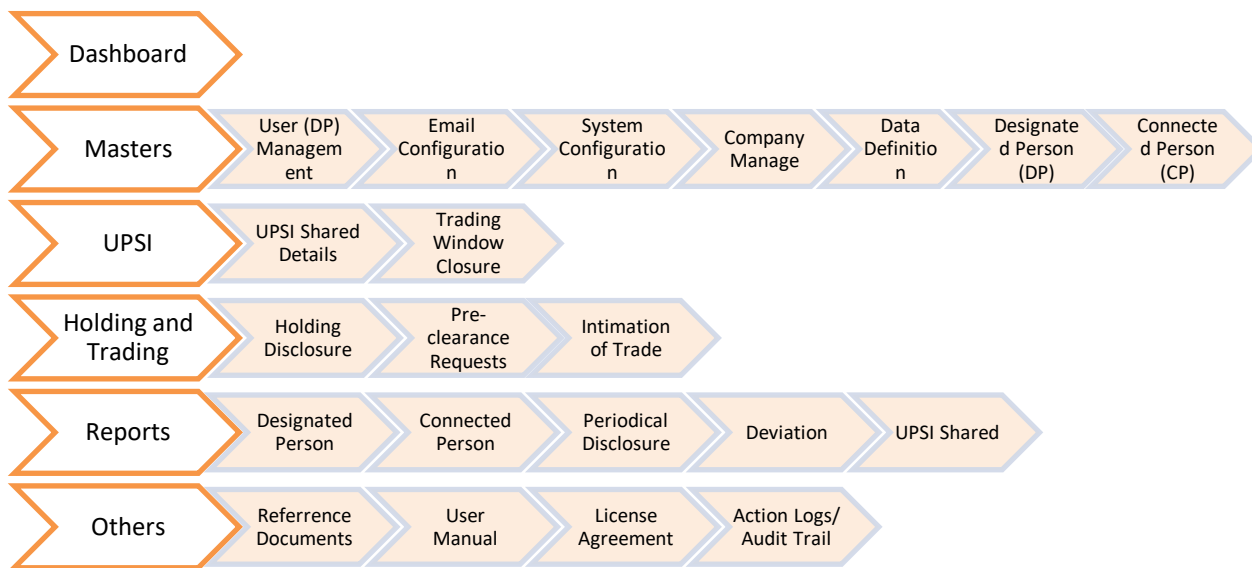

Secondary Approver

Secondary Approver is a role to be assigned to a user only to approve a Trade Preclearance Request made by the CO for herself/himself. In such a situation, the Board of Directors of the Company can appoint a person to whom the Secondary Approver role is assigned, and then the Secondary Approver will be able to approve or disapprove the CO's Trade Preclearance Request. Further, this role can also be assigned to

any other person, in the situation where the CO is unable to discharge his obligations or is on leave, to ensure compliance under these PIT regulations.

Compliance Officer privileges

The Compliance Officer can perform various tasks as shown in the figure below:

Managing Dashboard

After login, Dashboard of CO gives the status of their, Pending TWC notice, List restricted company, UPSI held or shared by user provides the status of Trading Window i.e., Open or Closed, Pending pre-clearance request, DP (Designated Persons).

List of Client/Restricted company:

Under this panel, when user clicks on this, list of all Client/Restricted companies which are already added will be displayed on dashboard page with company Name, NSE code, BSE code, class of company, Creation date and Action. Under Action user can view company details or CO can assign the company to the designated who want to trade.

UPSI:

Under this panel, user get to know details of all UPSIs (unpublished price sensitive information) which have been shared along with client/Restricted company name, shared by person, External person name, date of sharing UPSI, Person shared with, category of UPSI, Closure/Disclosure date, timestamp, In Action CO can send trading window closure notice.

Pending TWC Notice:

Under this panel, the CO can see the list of pending TWC notices to be sent on shared UPSIs (Unpublished Price Sensitive Information) by DPs. To issue the TWC Notice, CO must click on the Envelope icon under 'Action.' When he clicks on the Envelope icon, the Trading Window Closure Notice page opens. CO must fill out the mandatory fields and issue the TWC notice.

List of Designated person (DP):

Under this panel, CO can see the list of users which is already added in the application. CO can see the name of DP and Email id, In Under Action CO can view all Information of that DP like Date of Addition, User role and all personal information of that DP.

Pending Pre-clearance Request:

Under this panel, the CO gets to know the pending pre-clearance requests made (Buy/Sell/Pledge) by the designated persons from their respective logins. CO can approve/ disapprove the request by clicking on the "edit" action and submit her/his approval/disapproval for the trading's.

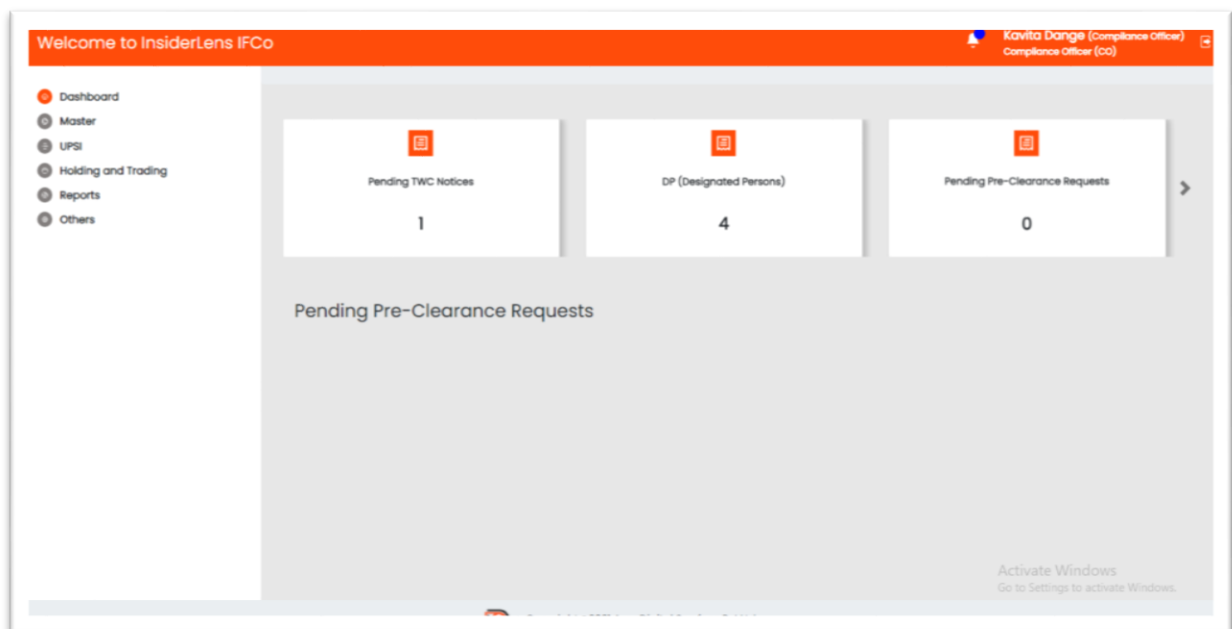

Figure 1: Dashboard View

Managing Members

User (DP) Management: Only for CO view

This tab is available for CO use only. In 'User Management' under +Add tab, CO can add/ edit information of various personnel who are going to be users of the system and CO will assign them roles such as DPs, Secondary Approver and UPSI Originator. According to the user's role, the CO will give access to this software by creating their User ID and Password. This will be sent to them by auto generated email, twice (if necessary), so that they can log in to the system and personalize the Password to their convenience.

Viewing User List

The User List screen shows the list of all users of InsiderLens IFCo. This list comprises of the Compliance Officer (CO) and Designated Persons (DPs) who have access to InsiderLens IFCo. The list further provides a list of Active users and Inactive users (disabled from using the system). The CO can view/edit/deactivate the data pertaining to the members through this screen (refer figure 2.1).

CO can also have the provision to send "Password Generation Email" by clicking on the **Email envelop** Icon under the "Action" column to the DPs added into the system. CO can edit/add the email body content.

Full Name	User Role	User Name	Email ID	Account Status	Action
Kavita Dange	Compliance Officer (CO)	kavita	sonali.babar@axardigital.com	Active

Ramakant Suryawanshi	Designated Persons (DP) UPSI Originator (UO)	ramakant	pramakant536@gmail.com	Active	
Swapnil Rajput	Designated Persons (DP) UPSI Originator (UO)	swapnil	prathameshlagate@gmail.com	Active	

Figure 2.1 User List

Adding New User

The CO can add users through **the Add** tab of user management and can add **User's Details** into the system screen as shown in figure 2.2.

The screenshot displays the 'Add User (DP)' form in the InsiderLens IFCo application. The sidebar on the left indicates the navigation path: Dashboard > Master > User (DP) Management > Add. The main content area is titled 'Add User (DP)' and features three tabs: 'Basic Details', 'Account Details', and 'User Roles'. The 'Basic Details' tab is currently selected, showing the following fields:

- First Name ***: Text input field.
- Middle Name**: Text input field.
- Last Name ***: Text input field.
- Date of Birth**: Date picker (DD/MM/YY).
- Nationality ***: Dropdown menu.
- Gender ***: Radio buttons for Male, Female, and Other. An additional option 'AP(HUF/Partnership firm/Body corporate)' is available.
- PAN**: Text input field.
- Name as per PAN**: Text input field.
- Profile Picture**: Image upload area.

The top right corner of the application shows the user 'Kavita Dange (Compliance Officer)' and 'Compliance Officer (CO)'. A watermark 'Activate Windows' is visible in the bottom right corner.

Figure 2.2 Adding New User

If the User left the company, Then CO Add Deactivate Date and deactivate this User.

Bulk Upload

InsiderLens provides facility to create multiple users at a same time by uploading user's data sheet.CO must download sample data sheet from Download Users Data Sample link under User Management, Bulk UploadTab. In Downloaded sheet, CO must fill all details of users as mentioned in sheet with correct data and attachfilled sheet and upload it by clicking on submit, When CO uploads user bulk sheet in Bulk upload. These fields are non-editable forthe DPs, Once uploaded by CO.

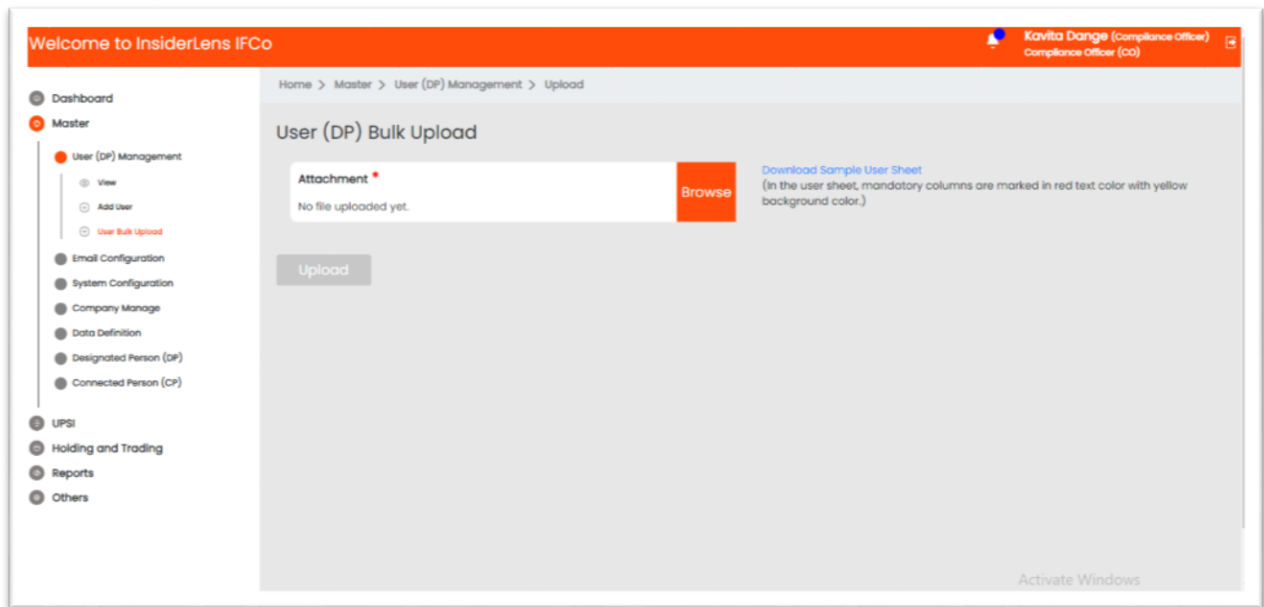

Figure 2.3a Bulk Upload for User Data

[illegible]

Figure 2.3b Excel sheet of Bulk upload

Highlighted in yellow and Red are mandatory field, 'Middle Name' in user bulk sheet which is optional. First name, Last name, Gender Category should be full text like Male, Female, HUF. HUF includes Partnership Firm, Body Corporate, etc. fill all mandatory fields and upload user bulk sheet.

Managing Email Configuration

Email Configuration for Compliance Officer and InsiderLens IFCo application. The CO can change email settings by selecting a profile to send email from the application or from the CO.

Viewing Email configuration

The CO can view/edit all the Email configuration details as shown in figure 2.4 below.

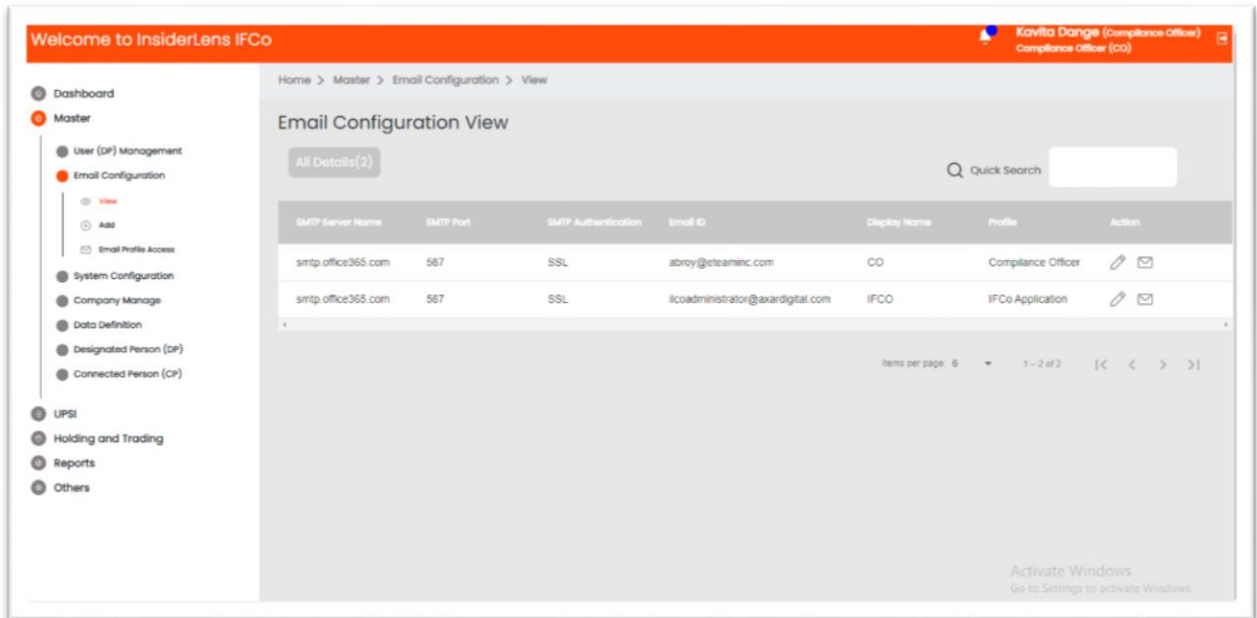

Figure 2.4a: View screen of email configuration

Adding Email configuration

Only Compliance Officer can add Email Configuration using the “Add” tab. Under this tab, CO would be able to specify the profile information of given fields as shown in figure 2.4 b below.

Managing Data Definition

➤ Data Definition: Only for CO view

Under the Data Definition tab, CO can specify various ID proofs which are acceptable under the Company's Policy. Once defined under the System, the DPs will be able to add those IDs' proofs while filling in their information and information of Connected Persons.

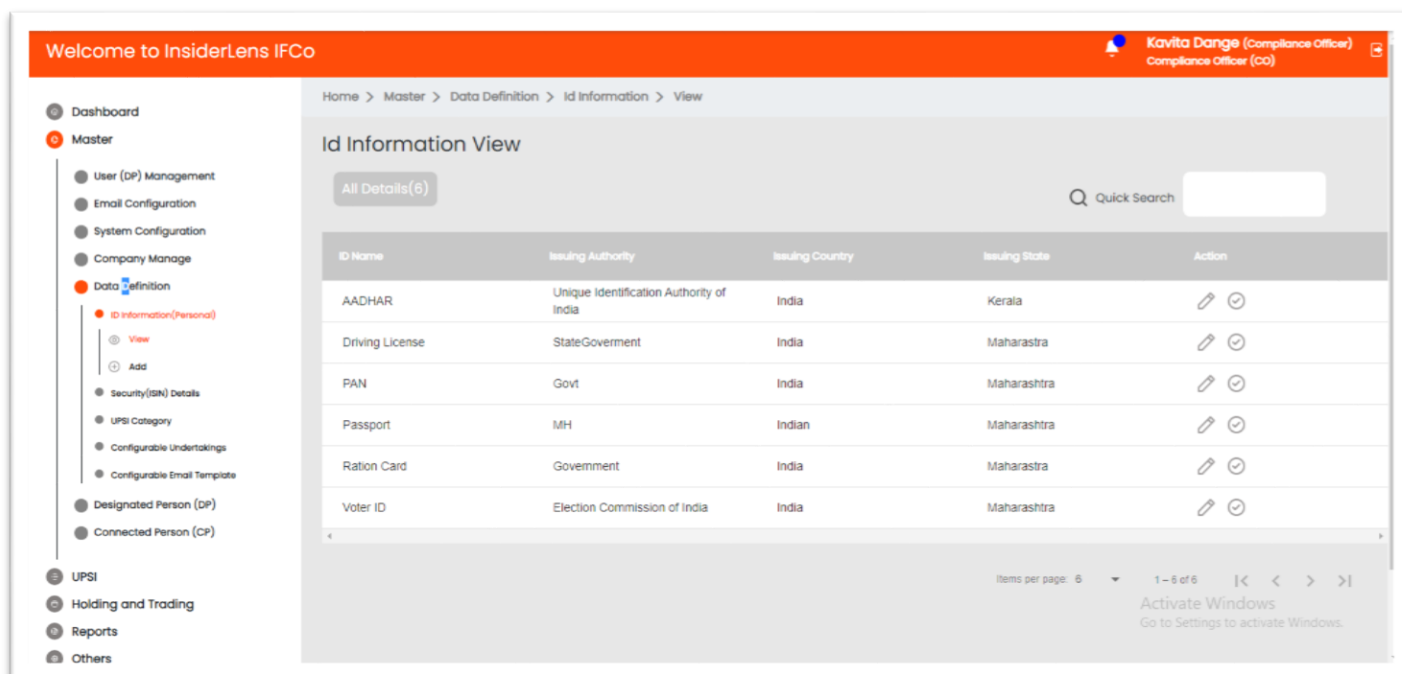

Figure 5.1 ID Information View

Viewing ID Information:

The CO can view/edit/delete all the ID Information details created by himself as shown in figure 5.1 below.

Adding ID Information

Only the Compliance Officer can add ID Information using the “Add” tab. Under this tab, CO would be able to specify the basic information of acceptable IDs under Company policy as shown in figure 5.2 below.

The screenshot displays the 'Add ID Information' screen within the InsiderLens IFCo application. The top navigation bar is orange and includes a welcome message, the user's name (Kavita Dange), and their role (Compliance Officer). The left sidebar lists various system modules, with 'Data Definition' and its sub-item 'ID Information (Personal)' highlighted. The main content area, titled 'ID Information', contains several input fields: 'ID Name' (with a red asterisk indicating a required field), 'Issuing Authority', 'Issuing Country', and 'Issuing State' (a dropdown menu). Below these is a checkbox labeled 'Whether from date/to date applicable?' with 'Yes' and 'No' options. A 'Create' button is positioned at the bottom of the form. A Windows activation watermark is visible in the bottom right corner.

Figure 5.2: ID Information Add screen.

Viewing Security (ISIN) Detail

Under this tab, the CO can add the listed securities of the Company with its Instrument id allotted by the stock Exchanges i.e., International Securities Identification Number (ISIN). The CO can view/edit all the security information created by him as shown in the figure 6.1 below.

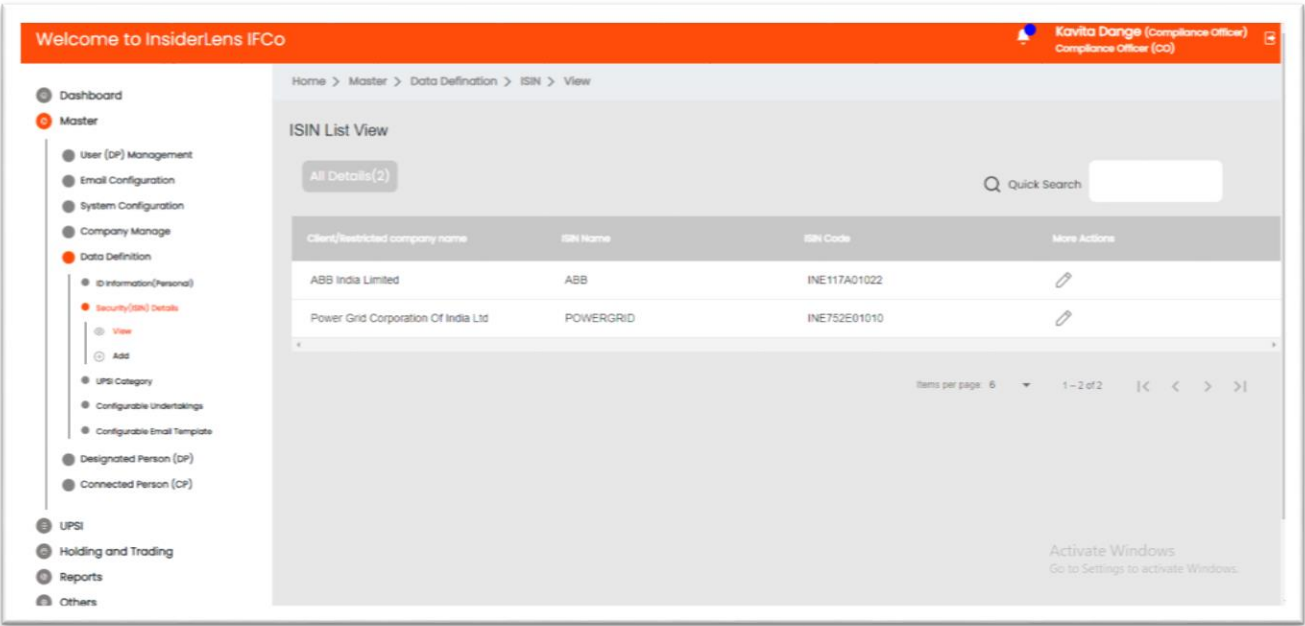

Figure 6.1: Security (ISIN) details View Screen

Adding Security (ISIN) Details

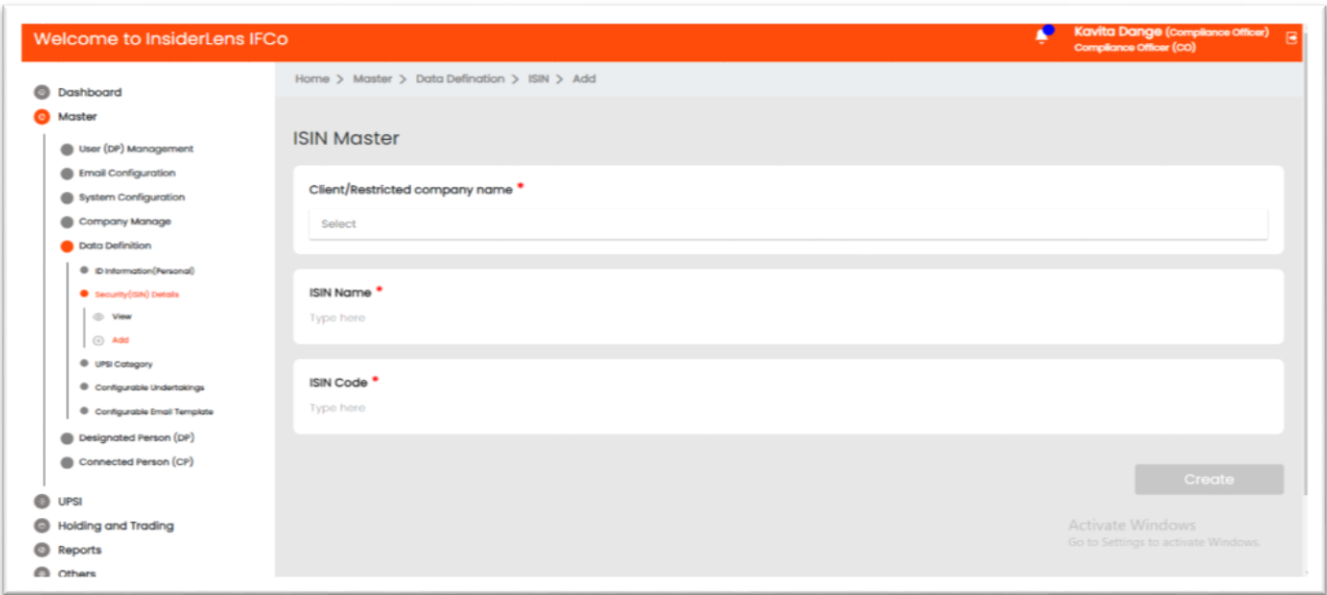

Figure 6.2: Security (ISIN) details Add screen.

Under Security (ISIN) details, CO can specify the securities issued and add the instrument code of the securities issued by the Company as shown in figure 6.2.

Viewing UPSI Category

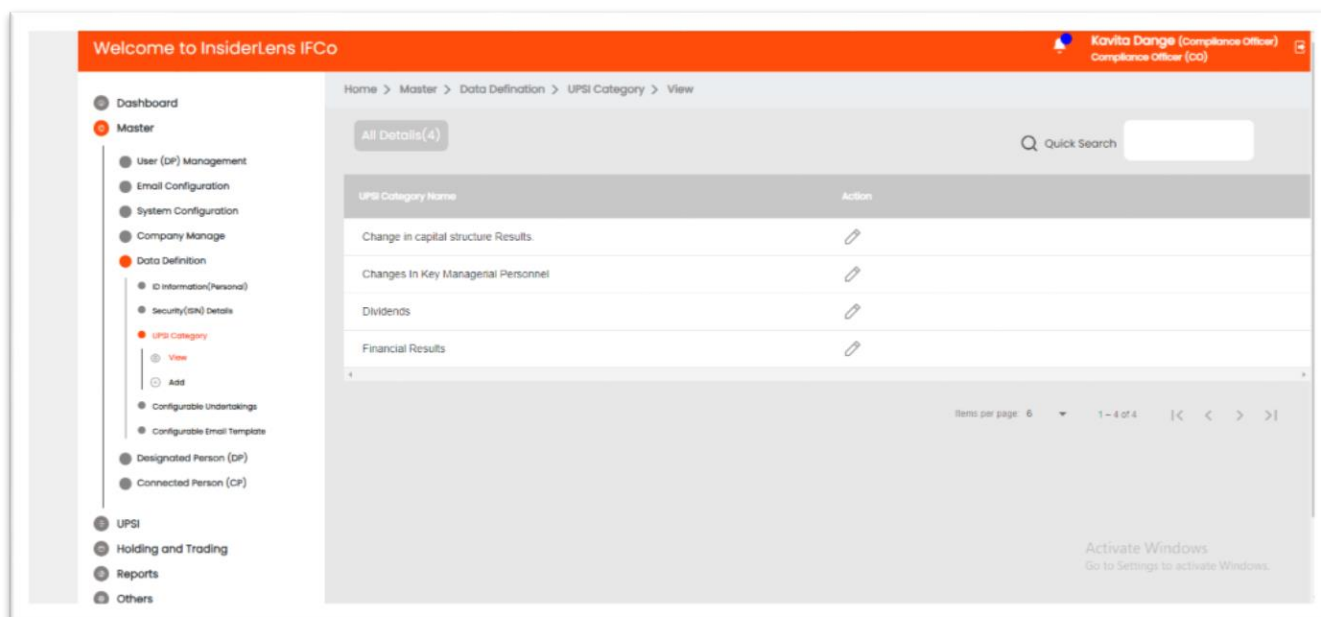

Figure 7.1: List of UPSI Category View screen

Under the UPSI Category tab, CO can specify the various categories of UPSI so that users while adding the UPSI can select the relevant category of UPSI, from the list available under this tab. The CO can view/edit the UPSI Category details. All the List of UPSI categories is shown in figure 7.1 below.

Adding UPSI Category:

Under this UPSI Category add tab, CO can specify additional UPSI Categories, as shown in figure 7.2.

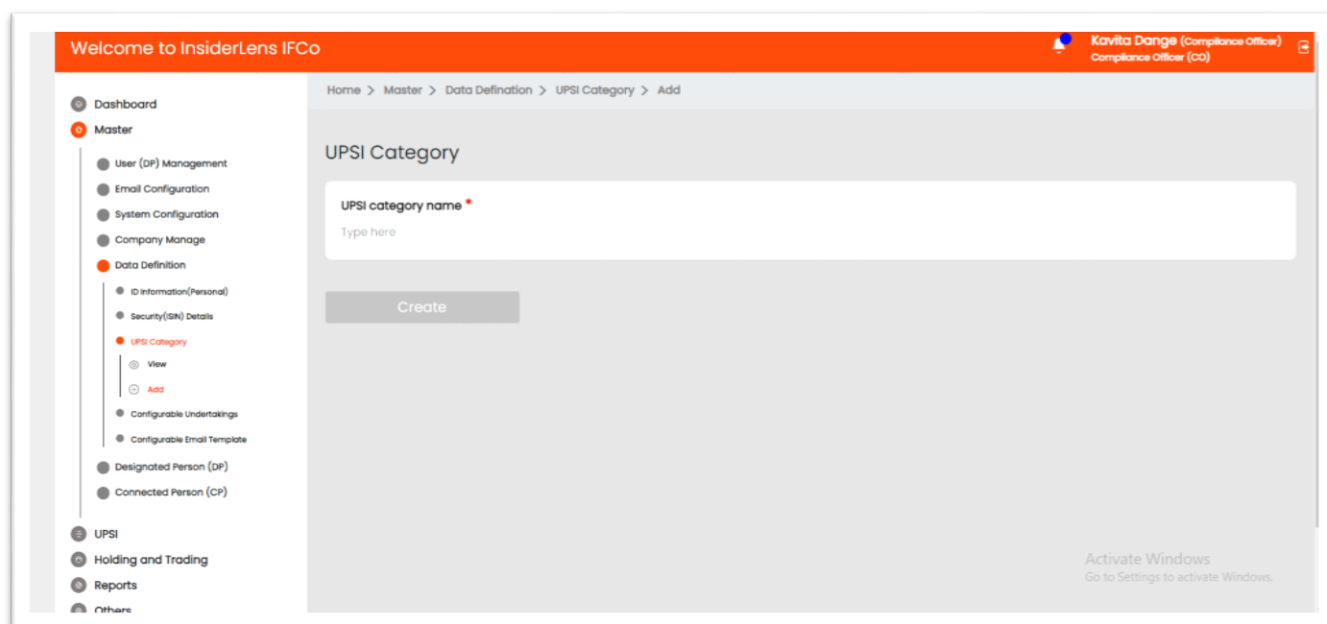

Figure 7.2: Add Screen of UPSI Category

Viewing Configurable undertaking

Under the Configurable undertaking CO cannot delete the undertaking, which is given by default in application. Given configurable undertaking name and their configurable Text.

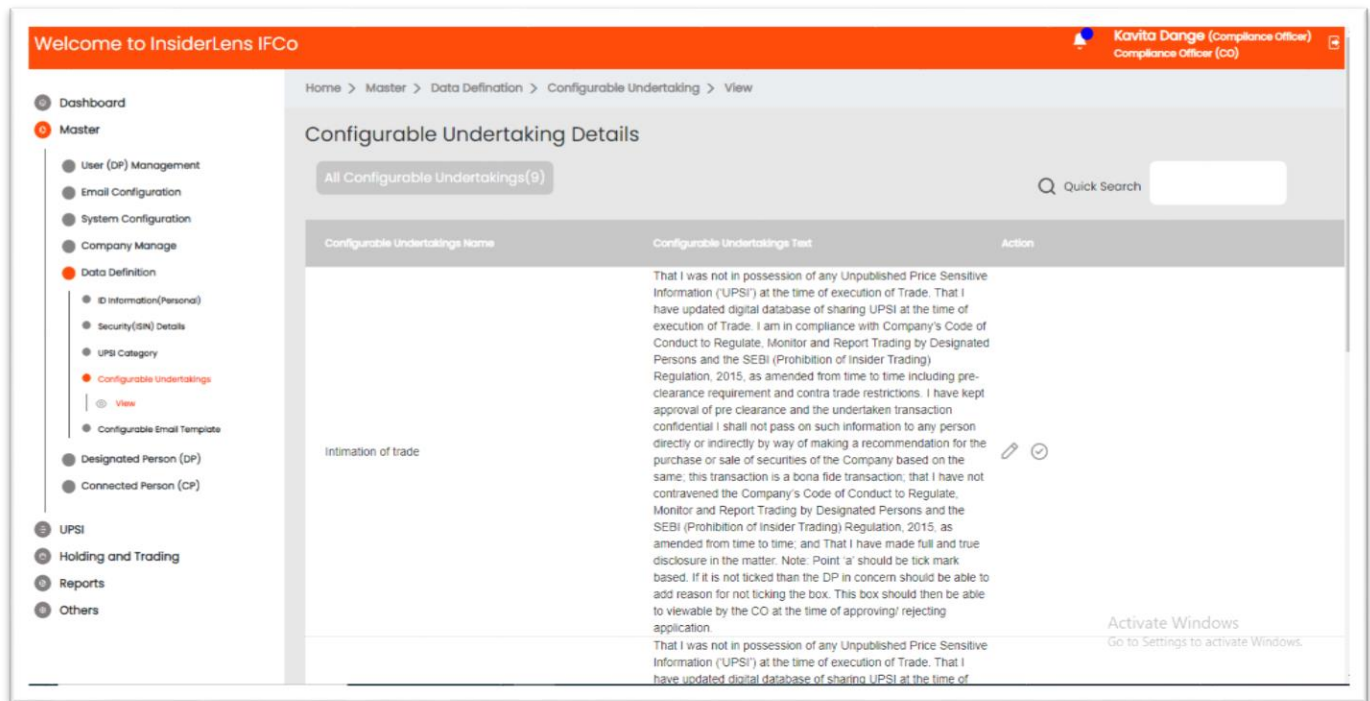

Figure 8: Configurable undertakings list

Viewing Configure Email Template

Under the Configure Email Template > view tab, CO can view /edit the configured email templates such as Event Name and Event subject on various actions/events. All the list of configured email templates is shown in figure 8.1 below.

CO cannot add Email templates, it added in software by default.

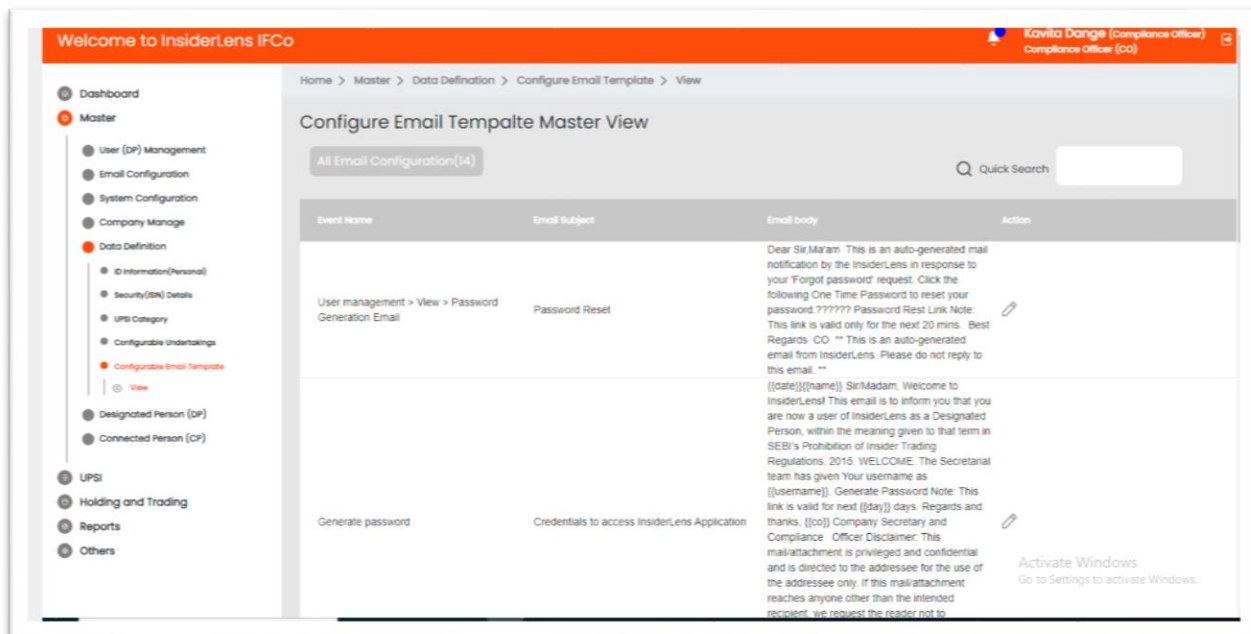

Figure 8.1: List of Configure Email Template

Managing designated person

Designated Person (DP) as per SEBI (PIT) Regulations means any Promoter, Director, relatives of Director, Senior Management Officials etc. as defined under the Company's Code of Conduct. Whoever, so defined under the Code, would be termed as Designated Person for these regulations.

Viewing Designated Person

For CO Login, the CO would be able to view the names and details of all designated persons added in the System. The details would include the basic details, designation, department, ID details, educational and Past employment details. The CO can only make the changes to the fields which are entered while creating DP users when there is a change required and DP must enter the other basic details requested by edit action on the same page. Refer figure 8.2 below.

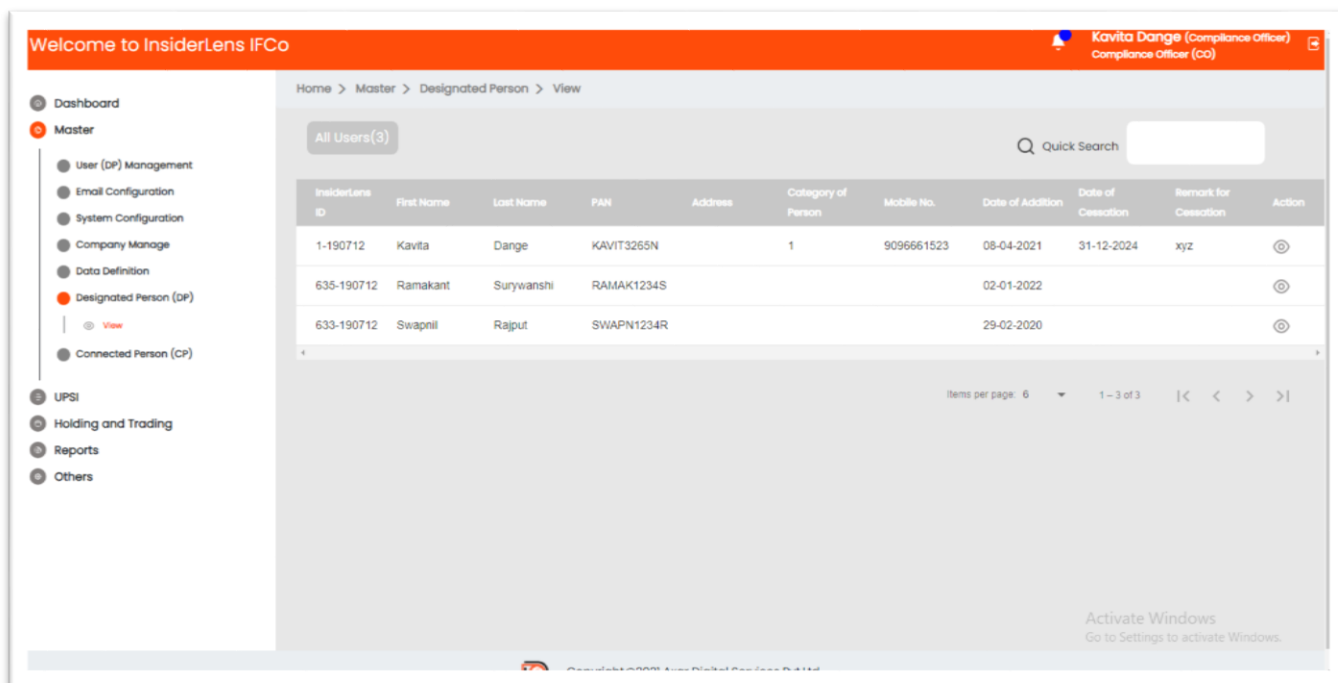

Figure 8.2 CO view of Designated person List

Managing Connected Person

Connected Person means any person who is or has been associated with the Company or a DP for six months prior, in any capacity and has direct or indirect access to Unpublished Price Sensitive Information (UPSI). Such a Connected Person can include any officer or employee of the Company or person who holds any position between himself and the Company whether temporary or permanent, any banker of company or any other third-party providing services to company. Connected Person can also include any other person as defined under Code of Conduct of Company under PIT Regulations.

Connected Persons are categorized into three types: OE (Other Entities), IR (Immediate Relatives), MFR (Material financial relationship) and can be seen in one view i.e., Connected Person > View.

Viewing Connected Person

For CO Login, the CO would be able to view/edit the details of all the Connected Persons added in the system by herself/ himself. And CO can View the details of all Connected persons added by other DPs.

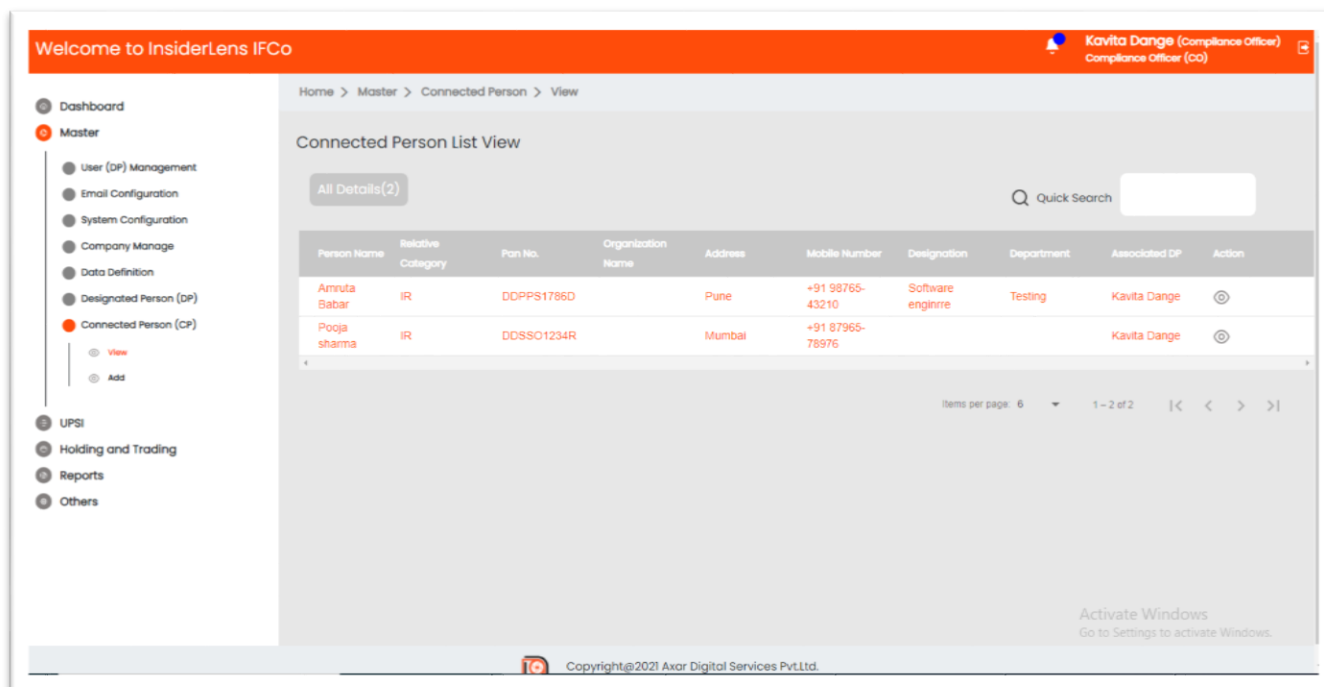

Figure 8.3: For CO Login: CO view of Connected Person List

Adding Connected Person: -

CO can add the name and details of all connected persons related to them. The details would include the basic information, designation, department, ID details of Connected Person. Below figure shows the 'Add' screen for connected person. For CO login can add the connected person details in the form of 3 subcategories i.e. Other Entities (OE), Immediate Relatives (IR), Material Financial Relationships (MFR).

While inserting connected person (IR/MFR), there is an option 'whether employee or not'. If you select 'NO' then automatically options of designation and department will be frozen.

Also, CO can be able to add **Common Connected Persons (CP)** with whom they are connected (who has the same PAN). Here while adding common CP, all the data related to him/her will be imported from previous DP's login where the same person has already been added as a CP(OE/IR/MFR).

Check connected person PAN: -

Add the PAN no and check if CP exists or not.

Adding Connected Person (Immediate Relatives): -

As per PIT Regulation "Immediate Relative (IR)" means a spouse of a person, and includes parent, sibling, and child of such person or of the spouse, any of whom is either dependent financially on such person or consults such person in taking decisions relating to trading in securities.

CO can add the name and details of all their IRs. Such details would include the basic information, designation, department, ID details etc.

they Add screen of Connected Person (Immediate Relatives).

Provision to add "**Guardian's PAN**" number if connected person (Immediate relative) is **Minor**.

Figure 8.4 Adding connect person.

Adding Connected Person (Material Financial Relationship): -

As per PIT Regulations “Material Financial Relationship” shall mean a relationship in which one person is a recipient of any kind of payment such as by way of a loan or gift during the immediately preceding twelve months, equivalent to at least 25% of such payer’s annual income but shall exclude relationships in which the payment is based on arm’s length transactions.

CO can add the name and details of all persons with whom they have material financial relationships. The details would include the basic information, designation, department, ID details etc.

Adding Connected Person (Other entity): -

Accountant, Banker etc. comes under the other entity, in this CO select the OE then, you have fill organization name.

Managing UPSI Shared Details

'Unpublished Price Sensitive Information' or 'UPSI' means any information which is not available for the public or undisclosed information about the Company or its Securities, which could materially affect the price of the Securities and the financial results. Any person in possession of UPSI information is not permitted to trade under the PIT Regulations. For example, UPSI will include information related to the following:

- dividends
- change in capital structure.
- mergers, de-mergers, acquisitions, delisting's, disposals and expansion of business and such other transactions
- changes in key managerial personnel. Etc.

Provided access to any CP(OE) added by any DP to all DPs while creating/sharing UPSI. CO can share UPSI details with all **DPs** in the system along with his/her connected **CP (IR)s** and **CP (MFR)s** and with **all CP (OE)s**.

Viewing UPSI shared details with insiders: -

For CO Login, CO can view the detailed list of all UPSI shared details as added by DPs in the system along with the names of the other persons to whom such information is shared with. The CO can further share the information with other DPs and CP(OE/IR/MFR) s.

Further, shared UPSIs can be again shared with other DPs/CPs. Only original UPSI sharer can edit the shared UPSIs.

. A **search** feature is also provided to search the specific UPSIs with particulars as shown in below figure 9.

Client/Restricted company name	Shared by	External Person Name	Date of sharing UPSI	Persons shared with	Category of UPSI	Closure/ Disclosure Date	Timestamp	Modified At	Action	Record ID
ABB India Limited	Kavita Dange (KAVIT3265N)	Ovi sharma	18-07-2023	Kavita Dange, Ramakant Suryawanshi	Dividends	—	24-07-2023 14:34:00	—	[Eye Icon] [Envelope Icon]	142
Power Grid Corporation Of India Ltd	N.A.	Ganga Rathii	21-03-2023	Swapnil Rajput	Financial Results	—	21-03-2023 12:21:07	—	[Eye Icon] [Envelope Icon]	141

Figure 9.: List of UPSI shared details

In the “Record of UPSI Shared with Insiders’ CO send the TWC Notice, to issue the TWC Notice, CO just must click on the Envelope icon under ‘Action.’ When he clicks on the Envelope icon, Trading Window Closure Notice page opens (Refer 14.1b). CO just must fill the mandatory fields and issue the TWC notice. After TWC Notice is sent, respective persons will get email notification about TWC notice.

Made provision that- Modification/deletion of entries can be initiated only by the person who made the original entry.

Adding UPSI shared details: -

Add Client restricted company name, External person, External person name means from whom we got the UPSI, add name of external person, His/her PAN no.

The tab is available to only those Users i.e., CO and DPs to whom one more role of **UPSI Originator** is assigned. Only CO has the authority to assign the role to any user. If any DP wishes to add details of the UPSI shared, he/she can request the CO to assign the UPSI Originator role. Once assigned, the person would be able to add new UPSI shared details in the system. By default, if the company chooses all DPs can be assigned this role in advance. The Add window is as shown in given below figure 9.1.

Figure 9.1: UPSI shared details add Screen.

Managing Trading Window Closure

Trading Window Closure (TWC) is the period during which specified insiders, or all insiders in case of the regular quarterly result-declaration closures, are prohibited from trading in the securities of the company. The trading window shall be closed when the compliance officer determines that a designated person or class of persons can be expected to have unpublished price sensitive information. The CO should inform the DPs about the window closure period to prevent them from trading in the securities and violating the regulation.

Viewing trading window closure:

For CO Login, the CO can view the history of all the trading window closures intimated with the date of intimation and purpose of intimation. Once added to the system, trade intimation cannot be deleted.

View for CO Login is as shown in given below figure 10.

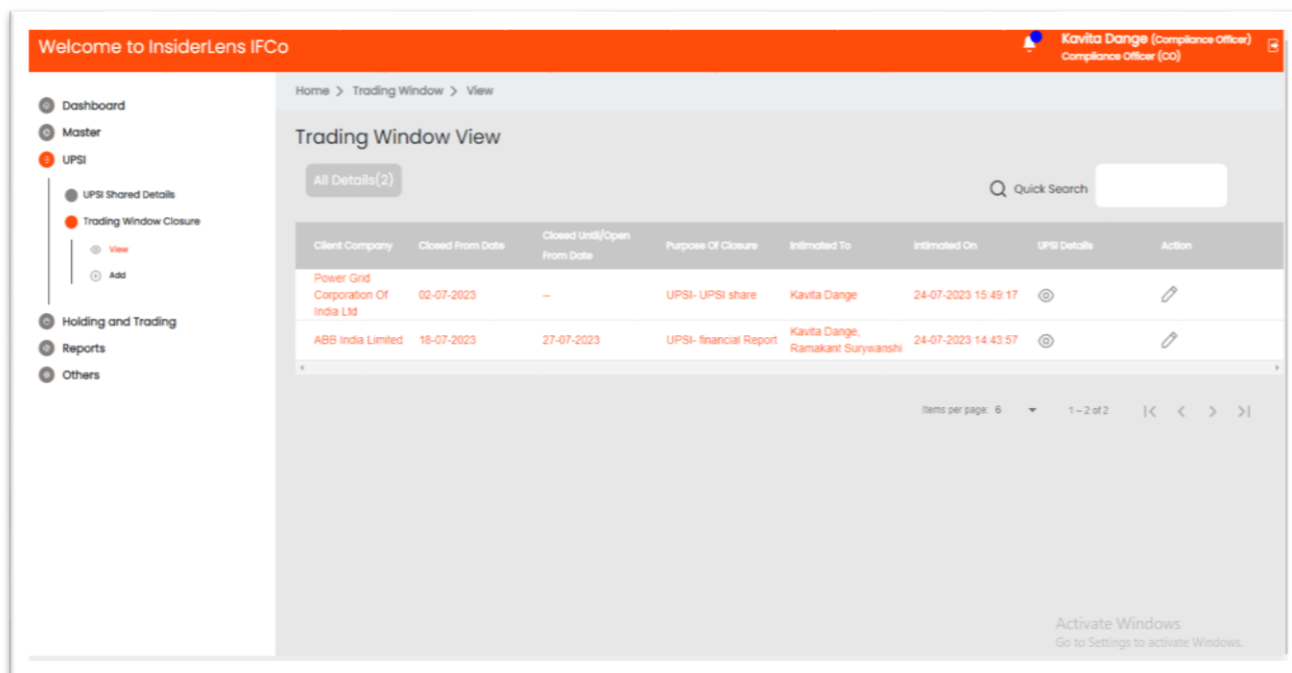

Figure 10.: List of trading window closure.

Adding trading window closure: -

Add those Restricted/client company name, whose UPSI is shared, and trading window is not closed, Add the purpose of closure, and UPSI share with and Closed from Date.

The screenshot shows the 'Add' screen for 'Trading Window Closure/Opening Notice' in the InsiderLens IFCo application. The interface features a sidebar menu on the left with options: Dashboard, Master, UPSI, Holding and Trading, Reports, and Others. The top navigation bar displays 'Welcome to InsiderLens IFCo' and the user's name 'Kavita Dange (Compliance Officer)' with a role of 'Compliance Officer (CO)'. The breadcrumb trail indicates the path: Home > Trading Window > Add. The main form area contains the following fields:

- Client/Restricted company name ***: A dropdown menu with 'Select' as the placeholder.
- Closed from date ***: A date input field with the format 'DD/MM/YYYY' and a calendar icon.
- Closed until/open from date**: A date input field with the format 'DD/MM/YYYY' and a calendar icon.
- Purpose of closure ***: A text input field with the placeholder 'Type here'.
- Persons shared with ***: A dropdown menu with 'Select' as the placeholder.

A 'Create' button is located at the bottom right of the form. At the bottom of the page, there is a footer with the text 'Activate Windows Go to Settings to activate Windows.' and a copyright notice: 'Copyright © 2021 Axar Digital Services Pvt.Ltd.'.

Figure 10.1: Add screen of trading window closure.

Managing Holdings Disclosure

Disclosures in the system means disclosure of information of securities held by CO/ CP. The user can add information related to securities held by them. The information includes the instrument id, number of shares held and type of disclosure (Annual/Half Yearly/Quarterly/Monthly/Fortnightly/Weekly). The CO could add disclosure for their own holdings along with the disclosures of their CP (IR).

Viewing Holdings Disclosure Details: -

For CO Login, the CO will be able to view disclosures given by all DPs for themselves and disclosures added on behalf of their CP(IR) would be as shown in Figure 11. below.

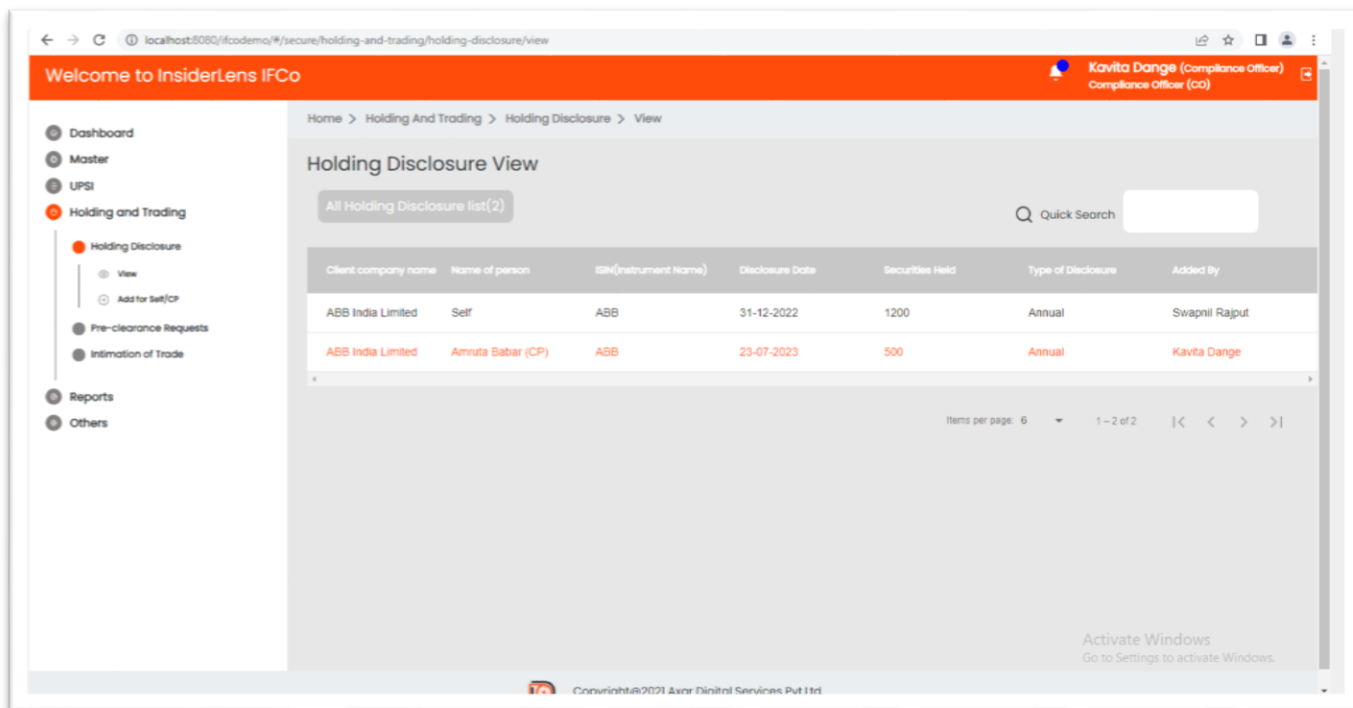

Figure 11.: Holdings Disclosure Details list

Adding Holdings Disclosure Details: -

Under the 'Add for Self/CP' option of the Holdings Disclosure tab, CO can add disclosures for themselves and others on behalf of their CPs, Immediate Relatives and for person with whom they have Material Financial Relationships. CO must give details of the type of securities held along with instrument id., Number of securities held and date of disclosure and type of Disclosure. Add Holdings Disclosure window is as shown in figure 11.1.

Figure 11.1: Holdings Disclosure Details Add for Self/CP

Managing Pre-clearance Request

Under Pre-clearance Request tab, the DP would be able to submit pre-clearance requests to CO and the CO would be able to approve/disapprove/partially the same.

Viewing Pending Pre-clearance Request list: -

For CO login, the CO could view the list of all requests received from DPs for approval. Under the same tab, the CO can take the desired action of approving, disapproving or partial approving the requests, while mentioning adequate reason for Disapproval or Partial Approval. While partially approving the request, the CO can also specify the quantity approved from the requested quantity. Once, the request is submitted to CO, the CO does not have any authority of deleting or editing any request.

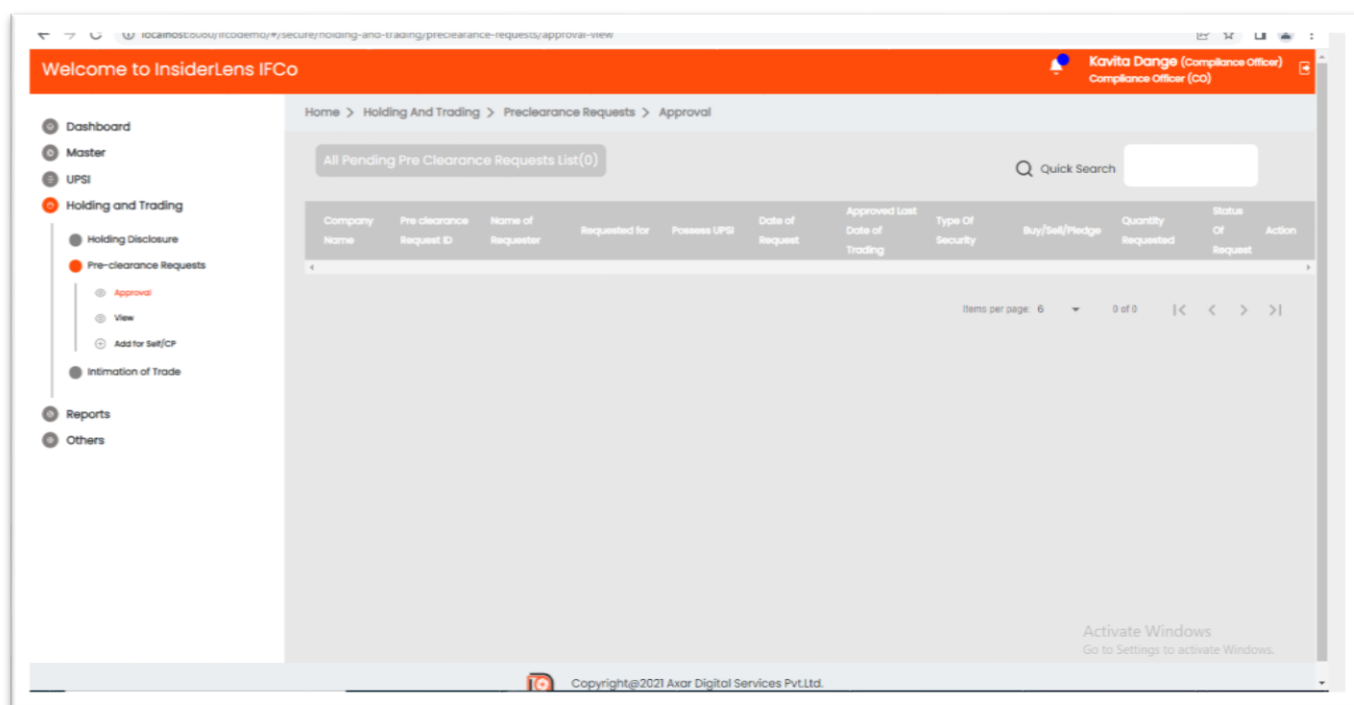

Figure 12.: All pending Pre-clearance request list.

Viewing pre-clearance request list: -

For CO Login, the CO can view the list of all the actions taken by him on the various requests made with reason of disapproval or partial approval and can view the list of all the actions taken by Secondary approver on the various requests made by him with reason of disapproval or partial approval, if any. CO will only be able to view the requests and not edit or delete them.

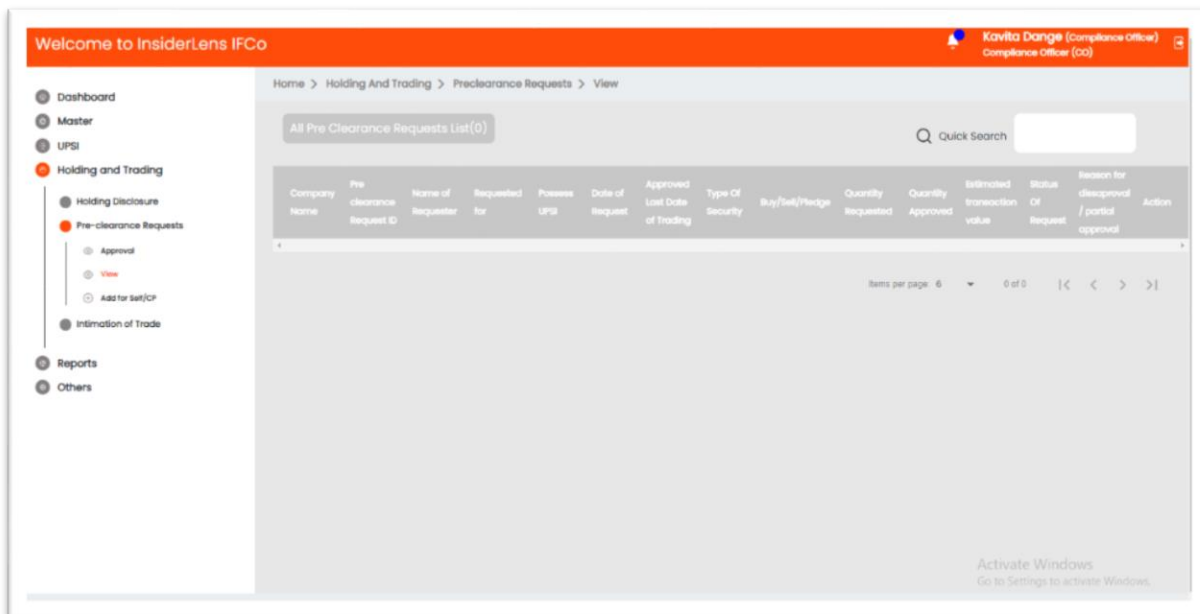

Figure 12.1 preclearance request View

Adding pre-clearance request: -

Under the Pre-clearance Request Add tab, the CO can send pre-clearance request to Secondary approver. The details to be added when making a pre-clearance request are type of security, quantity requested, type of trade i.e., Buy, Sell or Pledge, proposed last date of trade, Estimated Transaction Value etc.

Figure 12.2: Pre-clearance request add screen.

If CO/DP holds UPSI and while requesting pre-clearance and If selects **Possess UPSI** as 'No' despite of holding, then system throws an alert saying **"You are holding UPSI details. Please confirm it."** And after confirming by clicking OK, CO redirects to "UPSI shared detail's" view tab. Otherwise Possess UPSI option is on 'No' by default for not holding.

Managing Intimation of Trade

As per the PIT Regulations, the Insider should inform the Company about specific trades defined under Reg. 7 within two days of undertaking the trade. Under this tab, the CO or the DP can intimate details of the trade as and when undertaken. DP can also add trade intimations for their CP(IR)s as well. Beyond the Reg 7 requirement of informing the CO, the company may require all DPs to inform the CO about all trades, to prevent (and where too late, identify and report) violations of regulations relating to Contra Trade and breaching the Rs 10 lakh trading Ceiling.

80% threshold limit alert to DP. This is depending upon the value set in the Threshold details provided on **Company Details Tab**. The system sends a limit alert to the DP when the designated person exceeds 80% of the threshold limit by doing entries in trade information.

If trading is done in the period when Trading Window is closed and DP + CP(IR) intimated about the same trade, then Mail will go to CO regarding this.

CO can view the trade intimation records of all the DPs and their CP(IR)s so that he can get a clear idea about shareholdings of various DPs and CPs as shown in fig 13.

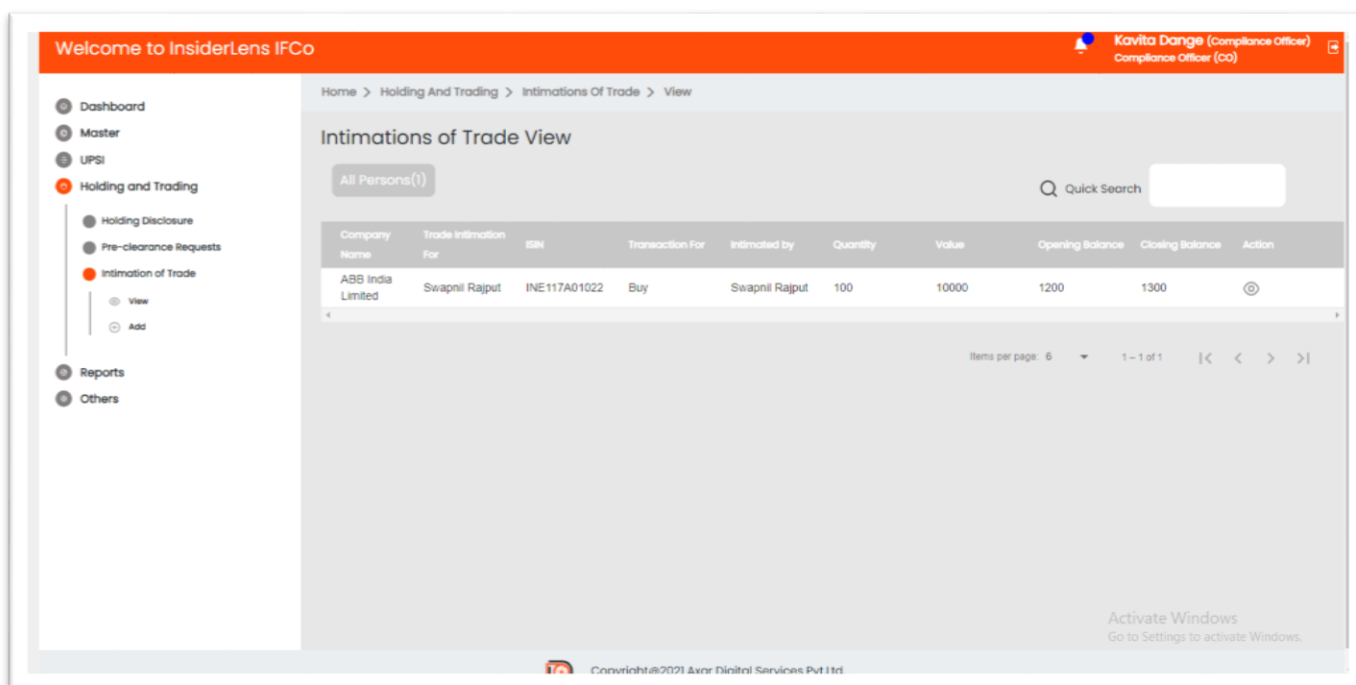

Figure 13.: List of Trade Intimations

Adding Trade Intimation

Under the Add Trade Intimation, the CO or the DP has the option of adding trade intimation, either for himself/ herself or for his/her Connected Person (Immediate Relatives).

The CO/DP can also inform in the same trade intimation whether Pre-clearance for the trade was taken or not. As shown in fig 13.1

Figure 13.1: Trade intimations add screen.

Managing Reports

The reports tab allows us to generate various reports based on the information stored throughout the system. This tab enables to keep a track of all the trading of DP and bring into notice any violation to the compliance of PIT Regulations. The various reports that can be generated from the system are.

- ✓ Designated Person and Connected Person report.
- ✓ Changes in holding.
- ✓ Periodical disclosure
- ✓ Deviation report:
 - ✓ Contra Trade.
 - ✓ Pre-clearance Violation
 - ✓ TWC Violation

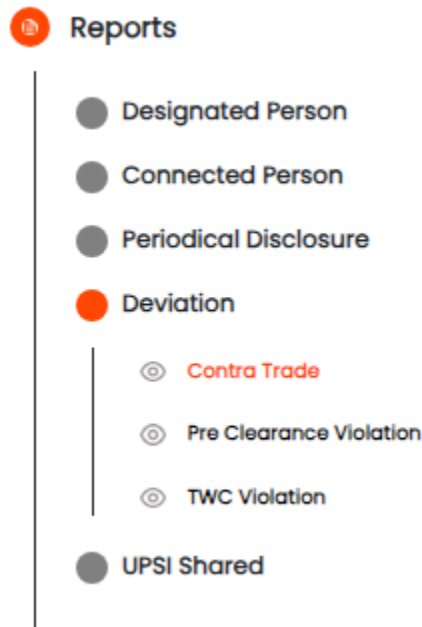

Figure 14.: List of reports

Designated Person Report

- Insider report gives a detailed list of information of all the insiders i.e., DPs, added in system for a selected time. Insider report generated from DP login will generate record for the information for that DP.
- It shows the details of all Insiders who have **Date of Addition** and **Date of Cessation** as insider between from date and to date.

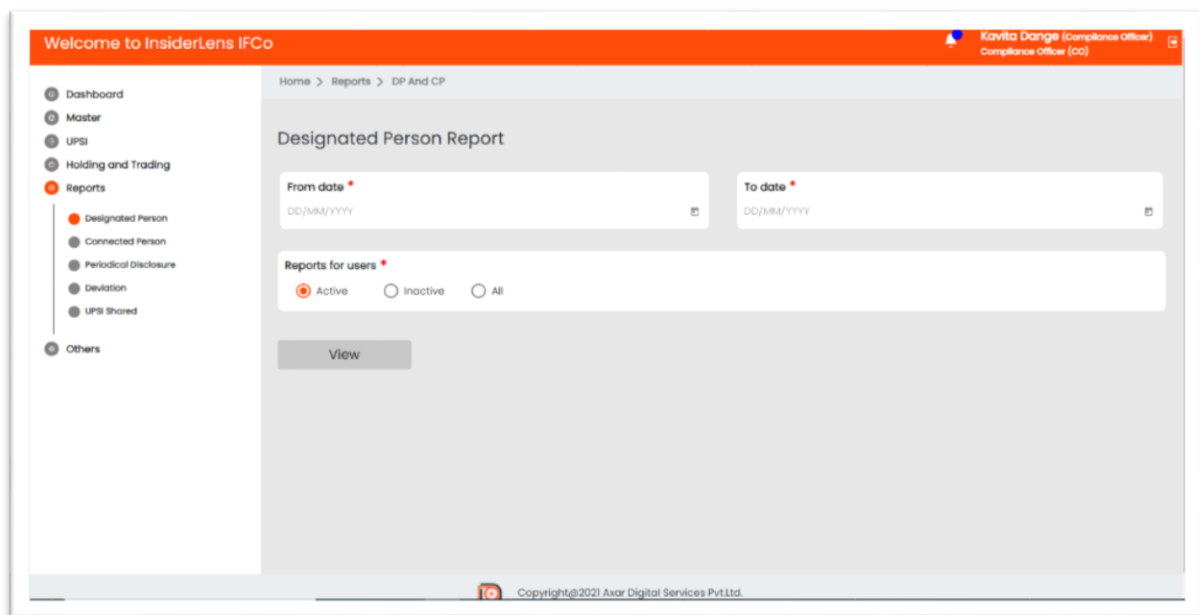

Figure 15.1a: Designated Person Report

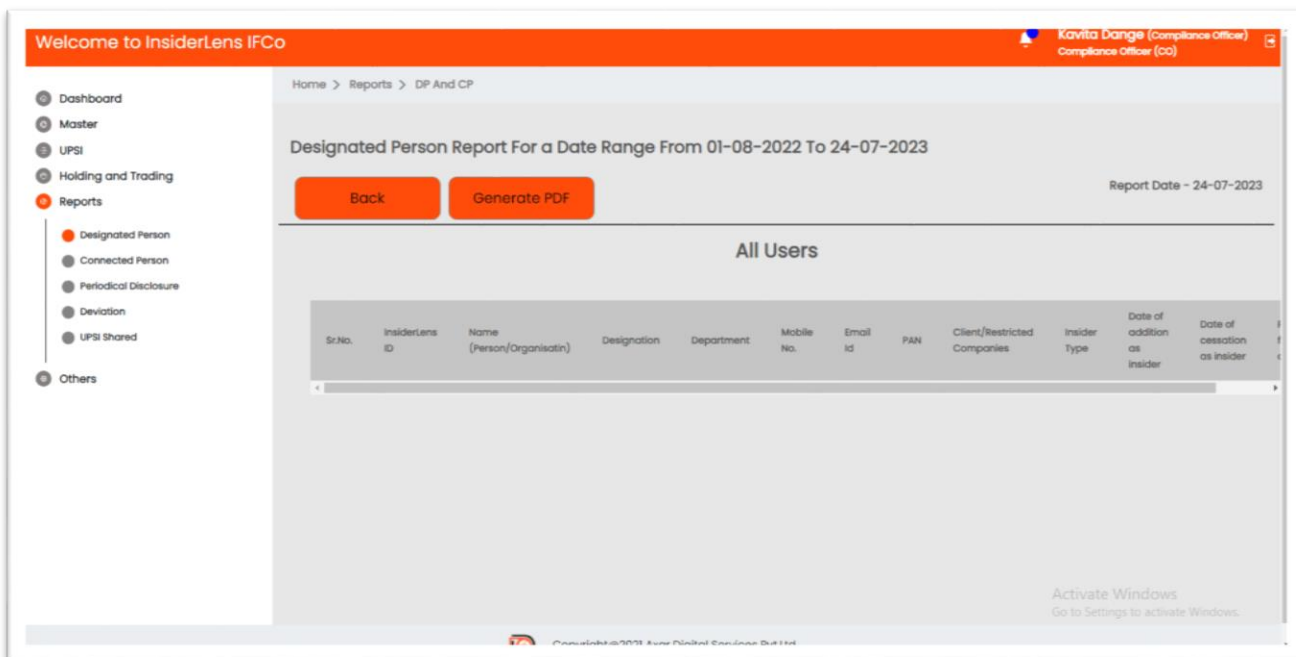

Figure 15.1b. Designated person Report

Connected Person Report

- The insider report gives a detailed list of information of all the insiders i.e., CPs, added in system for a selected time. Insider report generated from CO login will generate record for the information for that CPs.

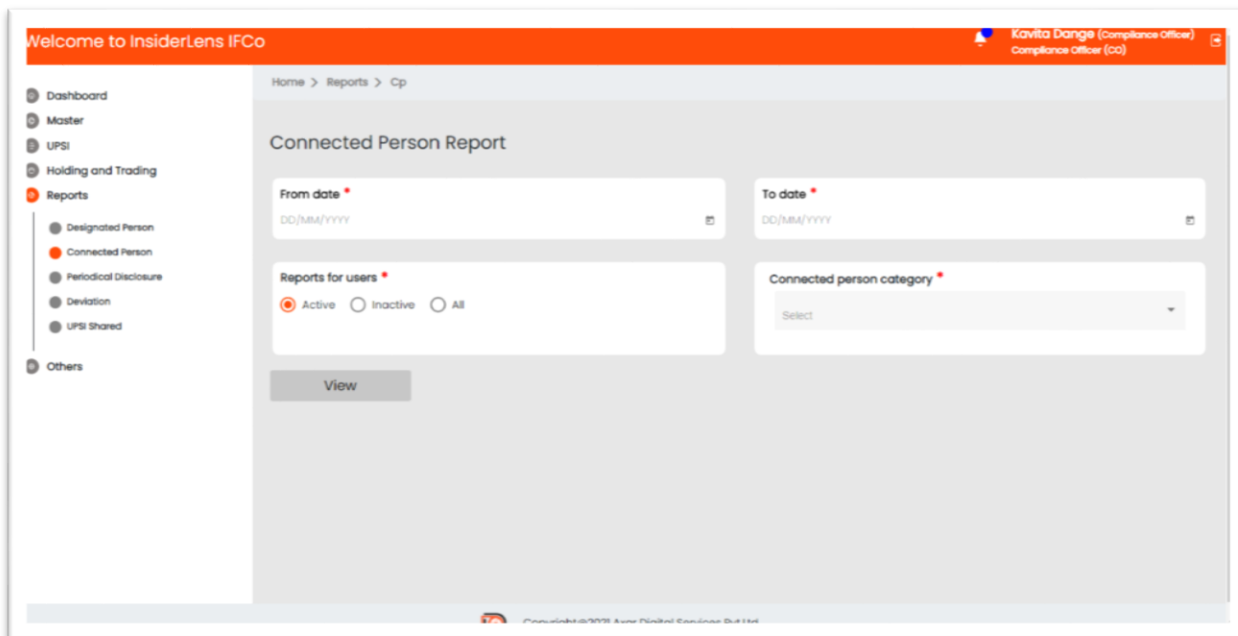

Figure 15.2a. Connected person Report

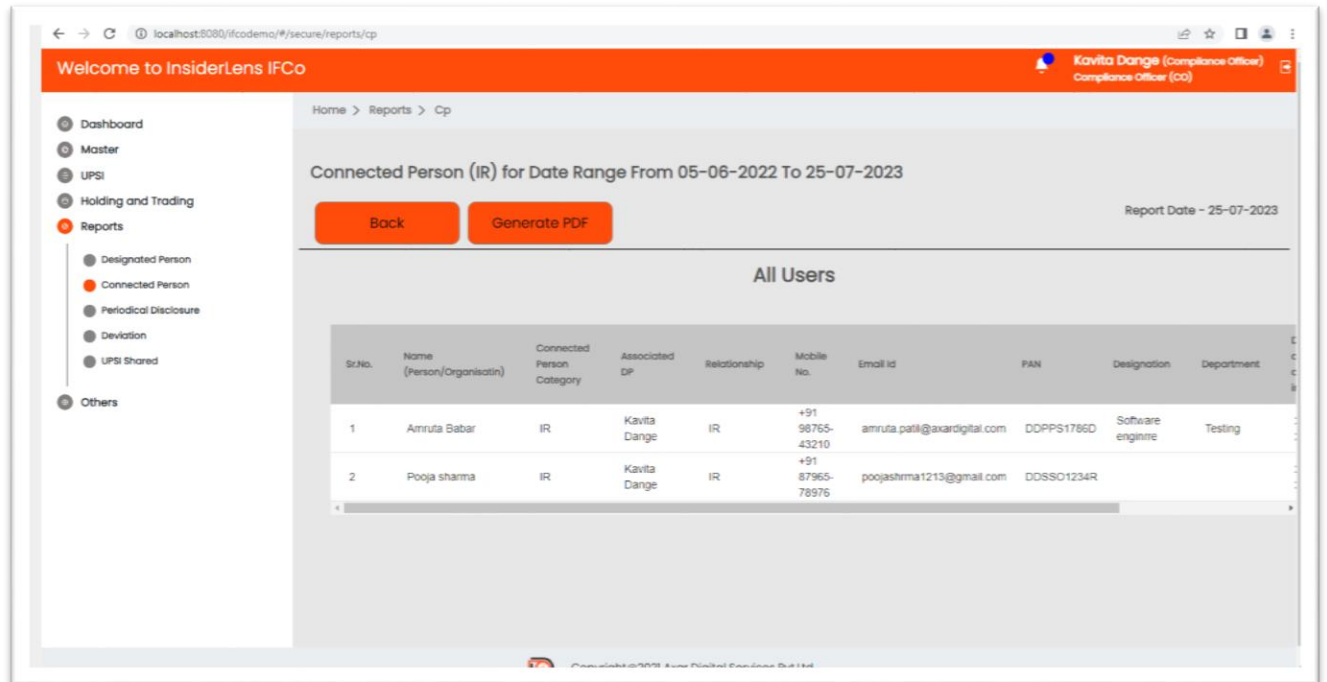

Figure 15.2b. Connected person Report

Periodical Disclosure Report

- This report would enable the CO to check all the disclosures and trade intimations made by a person for a defined time.
- It shows all trade intimation transactions for All Designated people in the given date range.
- **Required Data:** Disclosure and Trade intimation should be submitted.
- It shows sell or buy shares quantity in trade intimation.
- Opening balance = if disclosure amount of last disclosure before given to date
- Closing Balance = Opening balance - Trade intimation quantity
- Opening balance = Closing balance (closing balance will be considered as opening balance for next iteration)

Managing Reference Documents

CO can add any document which is relevant in reference to the Insider trading regulation, it could be SEBI's Circular on PIT, Industry News related to PIT etc.

Viewing reference documents list

CO can view the uploaded reference documents as shown in below fig 16.1.
Provided option to allow/disallow the reference documents access to all Designated persons by CO.

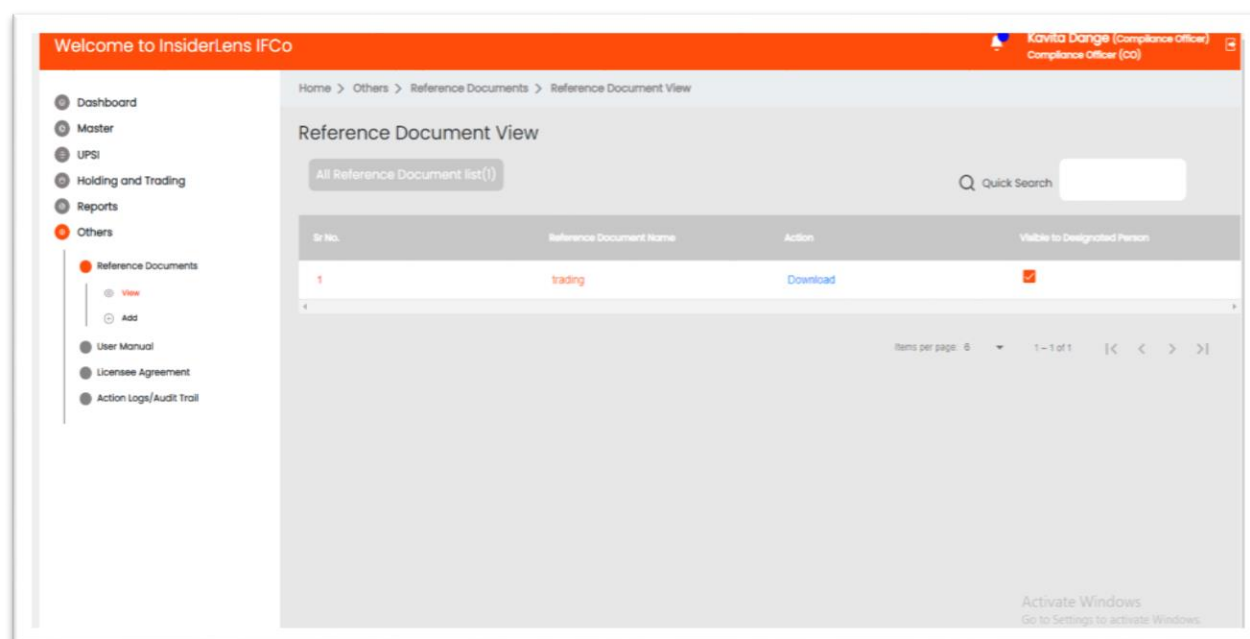

Figure 16.1: List of reference documents

Adding reference document screen

CO can upload the reference documents as shown in below fig 16.2.

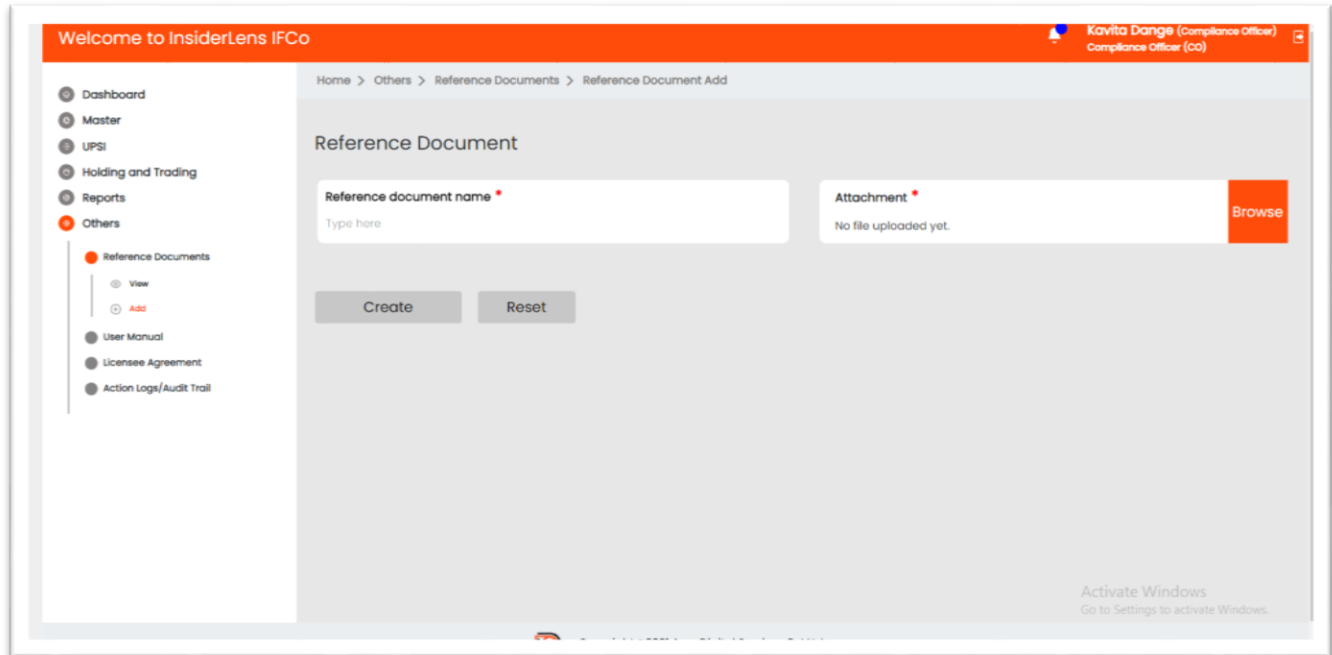

Figure 16.2: Add screen for reference document.

User Manual

By clicking on this tab Compliance officer can view the InsiderLens IFCo user manual which provides detailed documentation that how to use the InsiderLens software.

License Agreement

The document available under this tab contains the Software License Agreement between Axar Digital Services Pvt Ltd (the licensor) and your company (the licensee) for your reference.

Action Logs/Audit Trail

InsiderLens IFCo application provided an additional facility that CO could view the Action Logs/Audit Trail records on each action performed by any DP on their system in the InsiderLens IFCo application. Each user activity is logged with a time stamp. Co can also generate a PDF file of all entries made by using the export to pdf button.
