Introduction to InsiderLens

InsiderLens is a software solution designed by Axar to ensure compliance with the requirements of SEBI (Prohibition of Insider Trading) Regulations 2015 (Herein after PIT) pertaining to Insider trading. It is a web-based application which helps the Compliance Officer to follow the PIT Regulation adequately.

InsiderLens creates and maintains a Structured Digital Database (SDD) which is non-tamperable, highly secure and provides the Compliance Officer with an audit trail of all transactions. InsiderLens also serves the purpose of maintaining Unpublished Price Sensitive Information (UPSI) and insiders' details electronically. SEBI (Prohibition of Insider Trading) Regulations, 2015 (PIT Regulations), updated till July 17, 2020, require all Listed Companies in India to mandatorily maintain an SDD as an Institutional Mechanism within the company and not outsourced to any external entity, for prevention of Insider Trading. InsiderLens is the most suitable software for any Listed company to maintain an SDD and prevent insiders from trading in violation of the Regulation by giving timely alerts and reminders.

Compliance Officer (CO) can be said to have complied with PIT Regulations by using InsiderLens. The solution also helps Compliance Officer in generating various required reports. Activities like BenPos reconciliation, Alert for Window Closure to all Designated Persons, recording of declarations by Designated Persons (DPs), reporting of trades and disclosures etc., are facilitated through the solution. The solution also has data encryption for ensuring database security.

Features:

Following are some important features of Insider Vision:

- Alert for Trading Window Closure (TWC) to all Designated Persons.
- BenPos Reconciliation.
- Recording of declarations by Designated Persons (DPs).
- Easy reporting of trades and disclosures.
- Timely alerts and reminders to prevent insiders from trading in violation of the Regulation.
- Keeping track of trade intimation and trade requests.
- Providing authentication (data encryption??) for ensuring database security.
- Generates various reports such as Insider Report, Changes in Holding and Periodical Disclosure Report, Quarterly Monitoring Report and Deviation Report etc., at a single click.

Advantages:

- Ensures compliance with the requirements of SEBI (PIT) Regulations, 2015, updated till July 17, 2020.
- A web-based application that helps the Compliance Officer (CO) in -
 - Maintaining the records of trading done by Designated Persons (DPs).
 - Facility to attach pre-clearance approvals for trading if required.
 - Sending notifications for Closing and opening of Trading Windows.
 - Alerting insiders to prevent them from trading when in possession of UPSI.
 - Recording the activities of Connected Persons (CPs), Immediate Relatives (IRs), Material Financial Relationships (MFRs) who may have access to Undisclosed Price Sensitive Information (UPSI), in relation to trading of Company securities

Getting Started

IT Infrastructure Prerequisites

The InsiderLens system is installed in the **company's** premises. A server with the following specifications is a minimum requirement for 1 instance.

The I.T. infrastructure pre-requisites for implementing InsiderLens are:

Server Hardware (Minimum requirements)

- Processor: Quad Core
- RAM 8 GB
- 2 x 3.5" SAS (15K RPM) 300GB (up to 20 thousand documents of 5MB average size)
- RAID Controller
- HDD Partitions:
 - RAID 1 or RAID 5
 - C Drive: 100 GB
 - D Drive: Remaining out of 300GB
- Uninterrupted Power Supply
- DVD Writer, Monitor, Keyboard and Mouse

License Software for Server (Minimum Requirements)

- OS: Windows Server 2012R2 64-bit Standard Edition
- Database: MS SQL Server 2012 Express Edition or higher
- Server Antivirus software
- Team viewer for remote installation and configurations
- SSL Certificate for secured Internet (Optional. As per your organizations security policy)
- MS Office 2010 Standard Edition 32-bit or higher

Client Machine Specification

- Any PC with 4 GB RAM
- IE 11.0 or higher version browser / Google Chrome latest version / Mozilla Firefox latest version

Network Bandwidth

- Intranet: 100 Mbps LAN.
- Internet: Dedicated 2 Mbps speed to bear load of less than 15 simultaneous users

Types of users

The InsiderLens system is primarily designed to be used by 2 types of users namely - the Compliance Officer and Designated Persons.

Compliance Officer (CO)

Compliance Officer means an officer who is responsible for legal and regulatory compliance under SEBI (Prohibition of Insider Trading) Regulations, 2015. She/He is responsible for compliance of policies, procedures, maintenance of records, monitoring and preservation of Unpublished Price Sensitive Information (UPSI), monitoring of trades and implementation of the codes specified in the regulations.

Generally, the Company Secretary of the Company or any other senior officer, is designated by the Board of Directors for serving the above-mentioned purpose. The so-designated Officer is called Compliance Officer for the purpose of these regulations. (Hereinafter Compliance Officer is referred as CO)

Designated Person (DPs)

Under the SEBI (Prohibition of Insider Trading) Regulations 2015, Designated Person means any Promoter, Director, Senior Management Official etc. as defined under the Code of Conduct framed under these regulations by the Company. Whoever, so defined under the Code, would be termed as Designated Person for the purpose of these regulations. (Hereinafter Designated Person is referred as DP)

Designated Person (DP) mostly includes the following:

- ✓ All the Directors on the Board of the Company, all Directors of the Company's subsidiaries and associated entities;
- ✓ The Promoters of the Company including the members of the Promoters' Group;
- ✓ All specified Employees of the Company, its subsidiaries and its associated entities.
- ✓ Such other person or persons as the Compliance Officer may specify to be covered as DP under the Company's Code of Conduct under these regulations.

There are few more User Roles given in the software which are Secondary approver and UPSI originator.

UPSI Originators

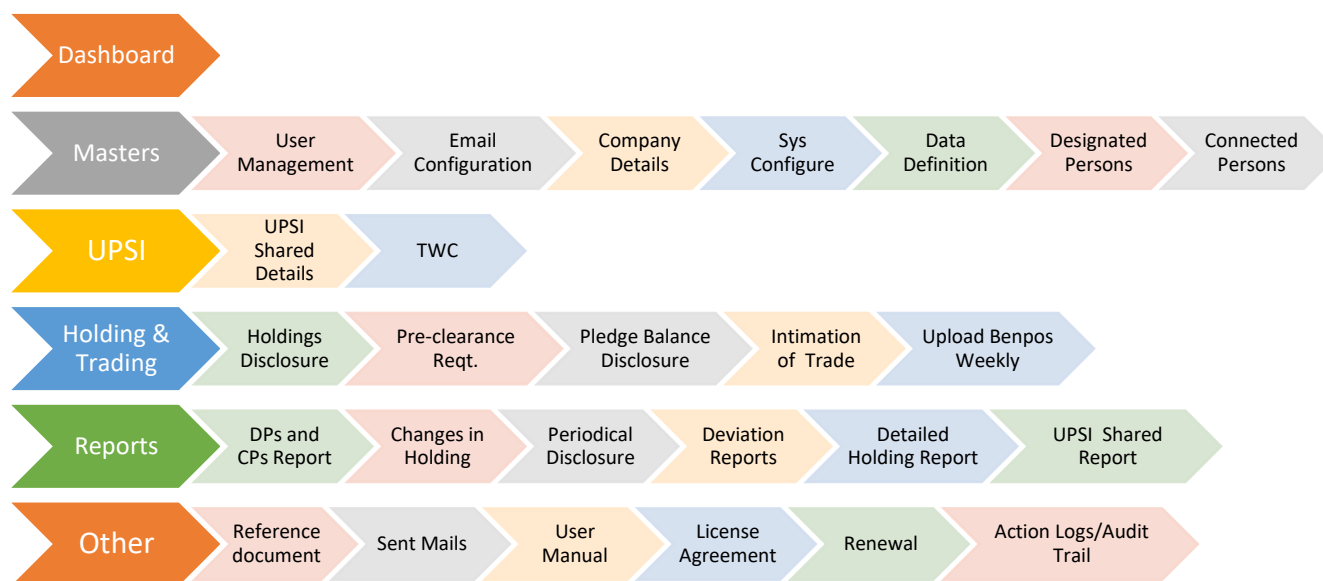

UPSI originator is a roll assigned by Compliance Officer to any Designated Person (who is already added as User in the software), who is in possession of UPSI and wishes to report the same in the software. The user with UPSI Originator role would be able to add any UPSI details in his/her possession and report the same to Compliance Officer. While adding, the person will also be able to mention the name of other persons with whom such UPSI details are shared.

Secondary Approver

Secondary Approver is a role assigned when a Trade Request is made by the CO herself/himself. In such a situation, the Board of Directors of the Company can appoint a person to whom the Secondary Approver role is assigned, and then the Secondary Approver will be able to approve or disapprove the CO's Trade Request. Further, this role can also be assigned to any other person, in the situation where the CO is unable to discharge his obligations or is on leave, to ensure compliance under these PIT regulations.

Compliance Officer privileges

The Compliance Officer can perform various tasks as shown in the figure below:

Managing Dashboard

After login, Dashboard of CO gives the current status of their trade intimations, UPSI held or shared by user and also provides the status of Trading Window i.e. Open or Closed.

In the system, the balance as per Trade intimation is shown in Rupees for that particular user on dashboard. It is calculated as Price*Quantity, where quantity is on the basis of trade intimations submitted by the user into the system for past three months.

✓ *Pending TWC Notices:*

Under this panel, the CO can see the list of pending TWC notices to be send on shared UPSIs by DPs. To issue the TWC Notice, CO just has to click on the Envelope icon under 'Action'. When he clicks on the Envelope icon, Trading Window Closure Notice page opens. CO just has to, fill the mandatory fields and issue the TWC notice. After TWC Notice is sent, respective persons will get email notification about TWC notice, and the relevant UPSI records will no longer be highlighted.

✓ *Pending Pre-clearance Requests:*

Under this panel, the CO gets to know the pending pre-clearance requests made (Buy/Sell/Pledge) by the designated persons from their respective logins. CO can approve/ disapprove the request by clicking on the "edit" action, and submit her/his approval/disapproval for the trading's.

✓ *Trading Window Status:*

On this tab, the user gets to know their trading window status on the date of login.

For example, if trading window is closed from 1st September to 3rd September, then if user logged in on 2nd September or in between 1st to 3rd September, User will see status as "**Trading Window Closed**"; otherwise, the status will be "**Trading Window Open**"

✓ *Trading Intimations for Self:*

Under this panel, the user gets to know about the status of their holdings as per the User's trade intimation and as per BenPos for that User, uploaded into the system, as obtained from the RTA.

This panel will help keep track of current holdings and will enable the user to cross verify the balance shown as per DPs trade intimations with the balance as per BenPos.

✓ *UPSI Status for Self:*

Under this panel, user gets to know details of all UPSIs which have been shared with him along with the date on which such UPSIs are shared till the time UPSI does not become public information.

✓ *Contra Status for Self:*

Under this panel, CO gets to know the all contra entries made during trade intimation for self. The InsiderLens dashboard will look as shown in figure 1 below:

InsiderLens Axar Digital Services Pvt. Ltd. Welcome Anuja A.

Welcome To InsiderLens

- Total trade intimations for the Quarter 1(Apr - Jun) is ₹ 72,101,00/-
- Trading Window Closed

Pending TWC Notices

Figure 1.2: User profile

Managing Members

➤ User Management: Only for CO view

This tab is available for CO use only. In 'User Management' under +Add tab, CO can add/ edit information of various personnel who are going to be users of the system and CO will assign them roles such as DPs, Secondary Approver and UPSI Originator. According to user's role, CO will give access of this software by creating their User ID and Password. This will be sent to them by auto generated email, twice (if necessary), so that they can log in to system and personalize the Password to their convenience.

Viewing User List

The User List screen shows the list of all users of InsiderLens. This list comprises of the Compliance Officer (CO) and Designated Persons (DPs) who have access to InsiderLens. The list further provides a list of Active users and Inactive users (disabled from using the system). The CO can view/edit/deactivate the data pertaining to the members through this screen (refer figure 2.1).

CO can also have the provision to send "Password Generation Email" by clicking on the **Email envelop** Icon under the "Action" column to the DPs added into the system.CO can edit/add the email body content. There are two different colored envelopes shown. The Red envelope indicates that the First Password is yet to be sent to the newly added DP. Should the first email to the DP expire, the CO can use the Green envelope for sending the Password Generation Email for the second time.

Red envelop: It indicates that password generation email has not been sent yet

Green envelop: It indicates that password generation email has been sent once, but if the first email is utilized, for any reason, the email can be sent again using the Green Envelope.

Figure 2.1: User list

Adding New User

The CO can add users through **Add** tab of user management and can add **User's Details** into the system screen as shown in figure 2.2

If the DP's tenure is completed then click on **"Is account active?"** switch button by making Yes to No, then user/DP gets inactive, also system directly captures deactivation date, the day on which CO has made Yes to No. Otherwise CO can disable the DP by clicking on **disable** icon under Action column on User management > View page.

Figure 2.2: Member details

Bulk Upload

InsiderLens provides facility to create multiple users at a same time by uploading user's data sheet. CO must download sample data sheet from Download Users Data Sample link under User Management, Bulk Upload Tab. In Downloaded sheet, CO must fill all details of users as mentioned in sheet with correct data and attach filled sheet and upload it by click on submit.

When CO upload user bulk sheet in Bulk upload, check 'Send Password Generation Email' checkbox if CO wants to send password generation email to all uploaded users. And check 'Provide UPSI Originator Role To All Designated Person' checkbox if CO wants to give all DP as a UPSI Originator role by default. Only CO can add these fields by uploading the sheet shown in figure 2.3a. These fields are non-editable for the DPs, Once uploaded by CO.

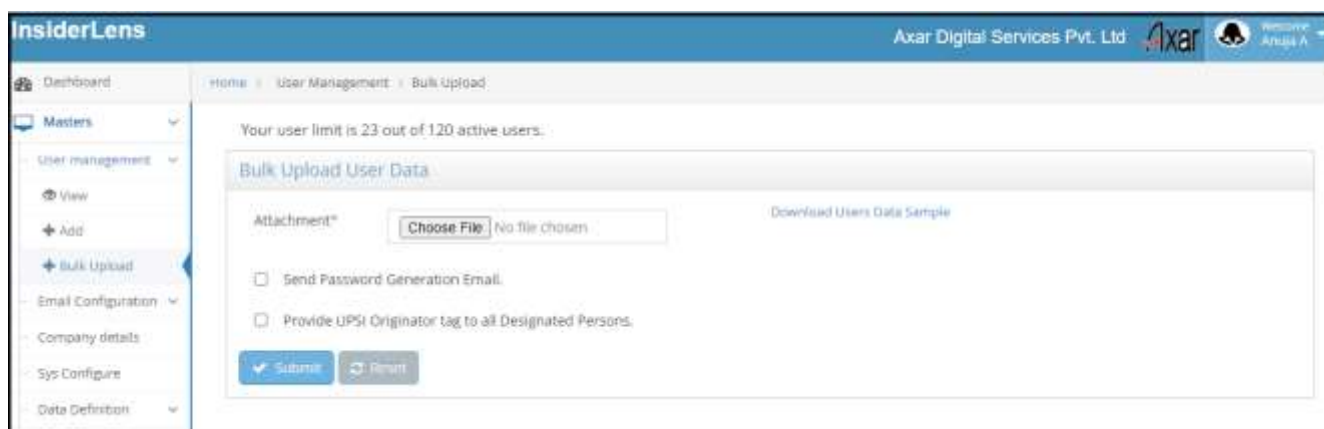

Figure 2.3a: Bulk Upload Users data

First Name	Middle Name (Optional)	Last Name	Gender, etc.(Male,Female,HUF/Part nership Firm/Body Corporate)	Nationality	Email Id	PAN	Date of Addition

Figure 2.3b: Sample format for User/DP bulk upload

Category should be full text like Male, Female, HUF. HUF includes Partnership Firm, Body Corporate, etc. Added 'Middle Name' column in user bulk sheet which is optional. CO can fill the middle name in user bulk sheet if it is required and upload user bulk sheet.

Managing Email Configuration

➤ Email Configuration: Can be viewed/Edited by CO

Email Configuration for Compliance Officer and InsiderLens application. The CO can change email settings by selecting a profile to send email from the application or from the CO.

Viewing Email configuration

The CO can view/edit all the Email configuration details created by himself as shown in figure 2.4 a below.

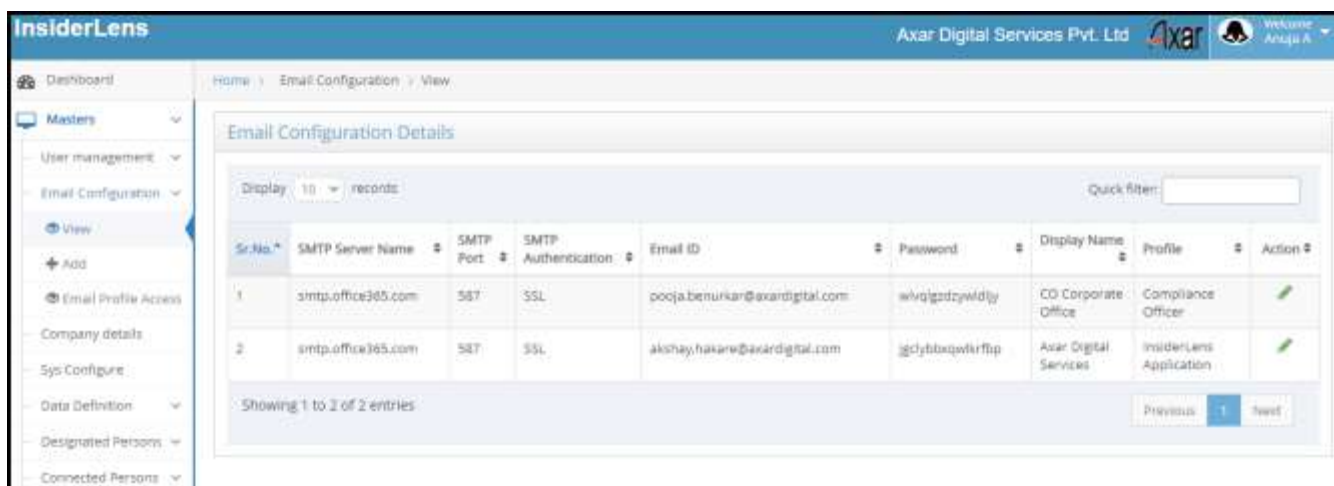

Figure 2.4 a: View screen of email configuration

Adding Email configuration

Only Compliance Officer can add Email Configuration using the “Add” tab. Under this tab, CO would be able to specify the profile information of given fields as shown in figure 2.4 b below.

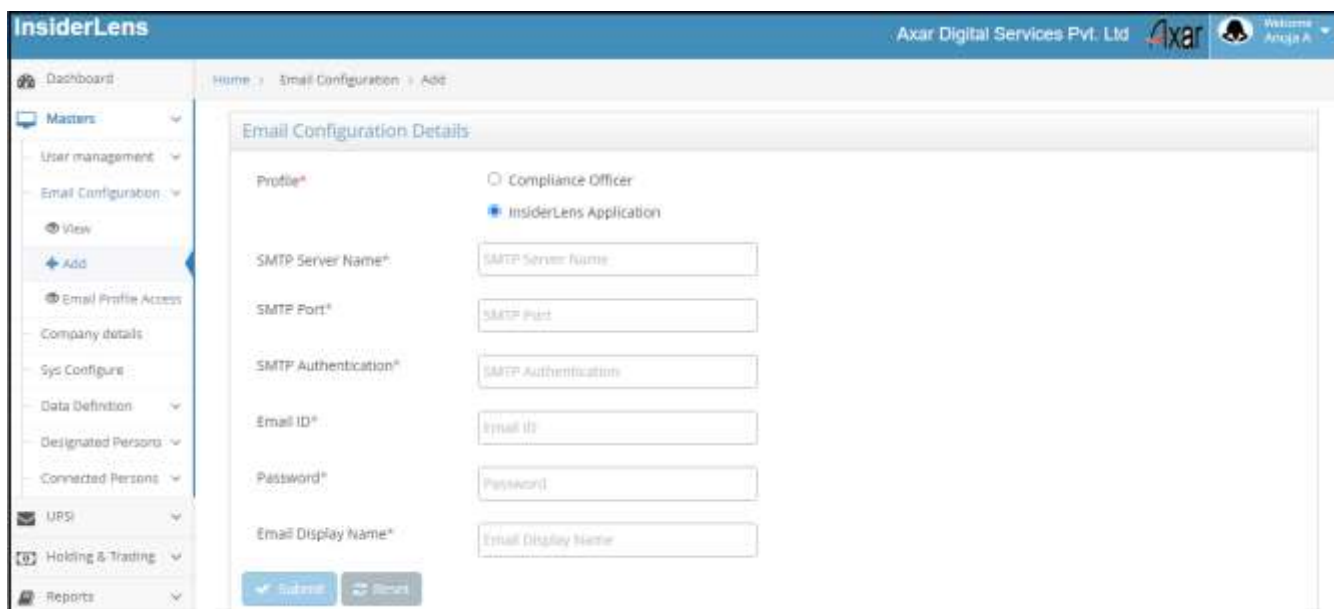

Figure 2.4 b: Add screen of email configuration

Viewing Email Profile Access

Here, CO can specify various actions by selecting a profile and choosing which action to prefer to send email to. The figure below shows a list of email profile accesses for various actions. The CO can edit / update these actions by selecting the profile.

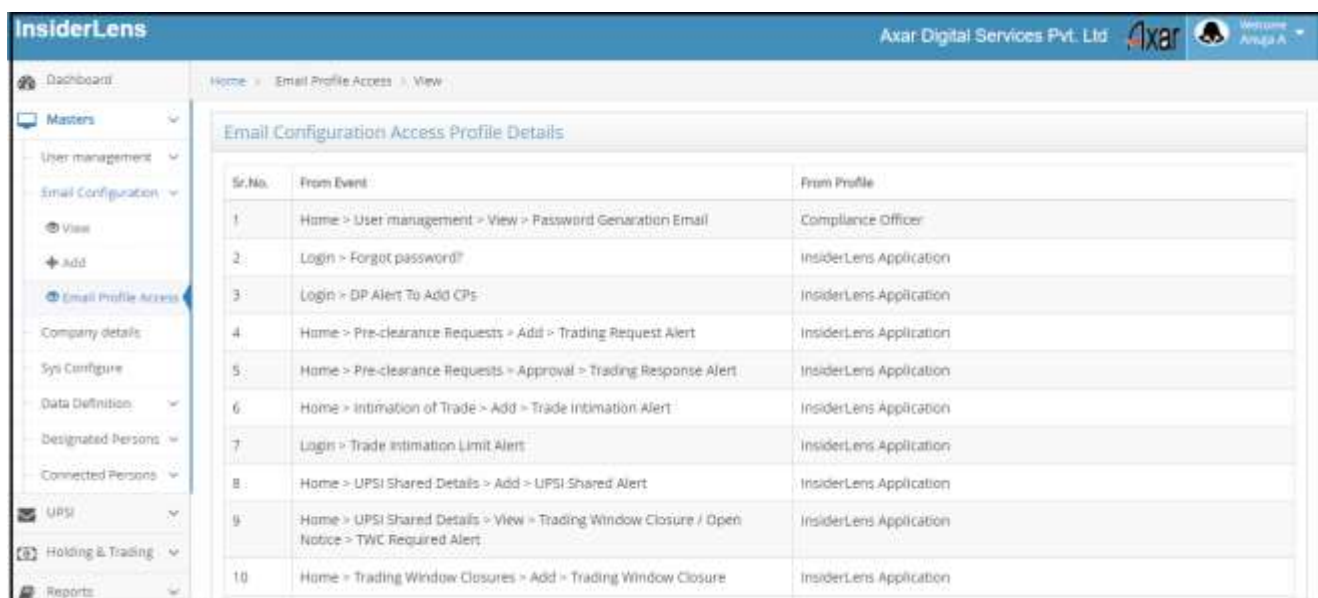

Figure 2.4 c: Email profile access screen

Managing company data

➤ Company Details: Can be viewed/Edited by CO

The company details include basic data of the Company like Name, CIN, NSE/BSE Code of company, capital etc. The CO can view/add/edit the details of a company using **Company Details** screen as shown in the figure 3 below:

Here, **Company has** field provided with some defined options and depending on selected options, system shall ask to fill the name of those **Related Companies details**.

Under **Threshold Details** panel, CO can set limit for transaction's 'Value-Rupees' and 'Quantity (Number of shares)' for selected Periodicity (Annual/Half yearly/Quarterly)

Automate the next disclosure date with previous disclosure date on Company details page. Automatically set next disclosure date using previous disclosure date and type of disclosure. Once CO select Type of disclosure and previous disclosure date and system calculate next disclosure date.

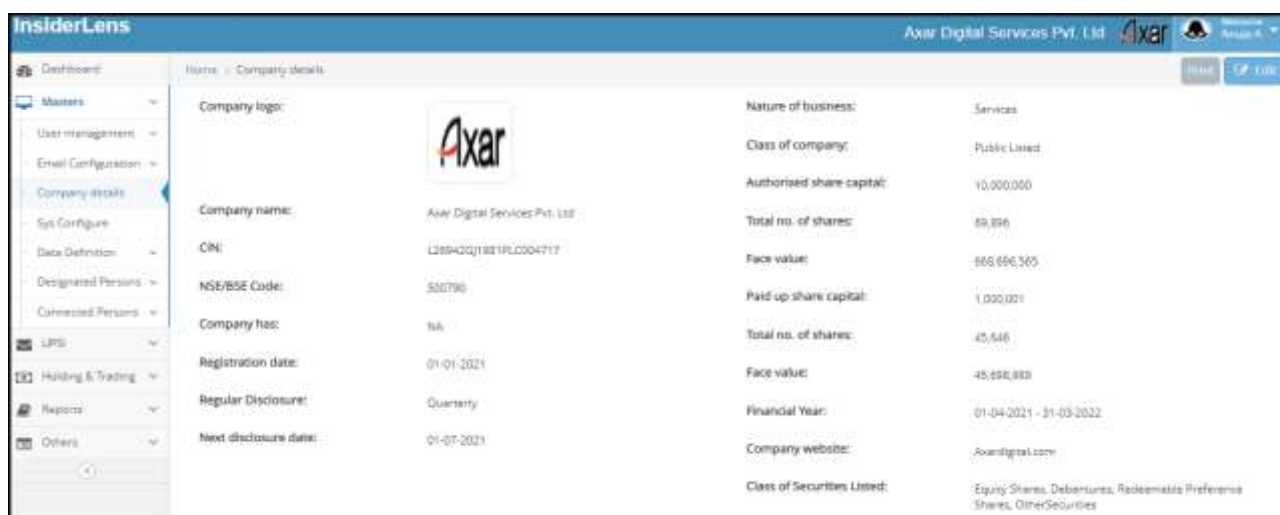

Figure 3: Company details

Managing system configuration

➤ Sys Configure: Can be viewed/Edited by CO

The Sys configure include basic data of the system configuration like User password setting, User account lock setting, Password guideline setting, Session setting etc. The CO can view/add/edit the system configuration details using Sys configure screen as shown in the figure 4 below:

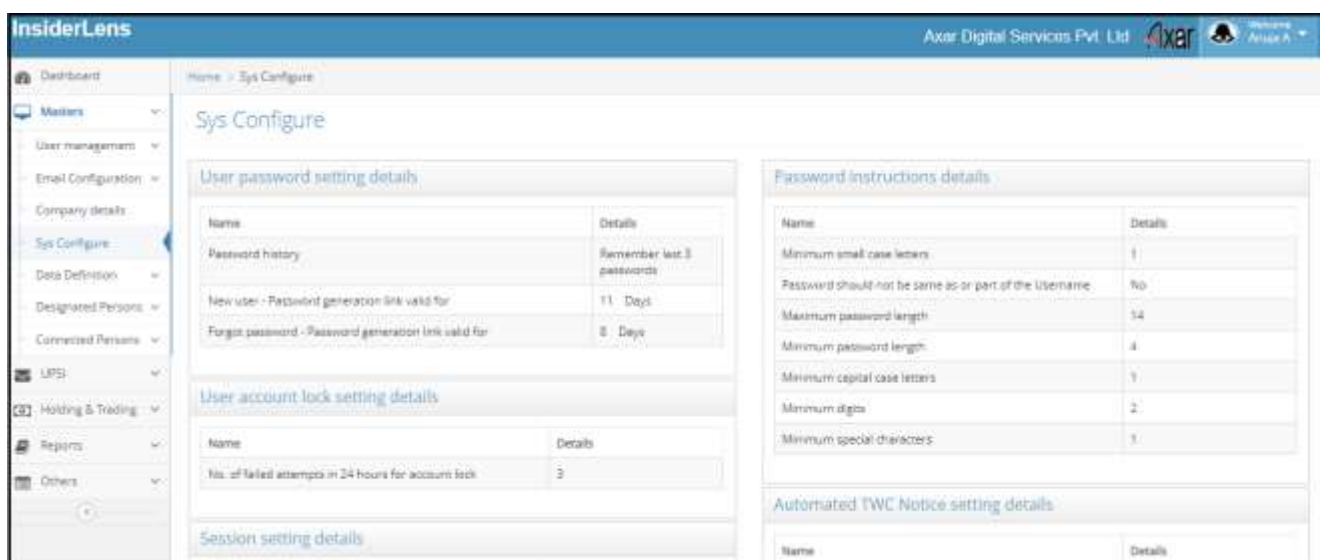

Figure 4: Sys Configure

Managing data definition

➤ Data Definition: Only for CO view

Under Data Definition tab, CO can specify various ID proofs which are acceptable under Company's Policy. Once defined under the System, the DPs will be able to add those IDs' proofs while filling their information and information of Connected Persons.

Viewing ID Information

The CO can view/edit/delete all the ID Information details created by himself as shown in figure 5.1 below.

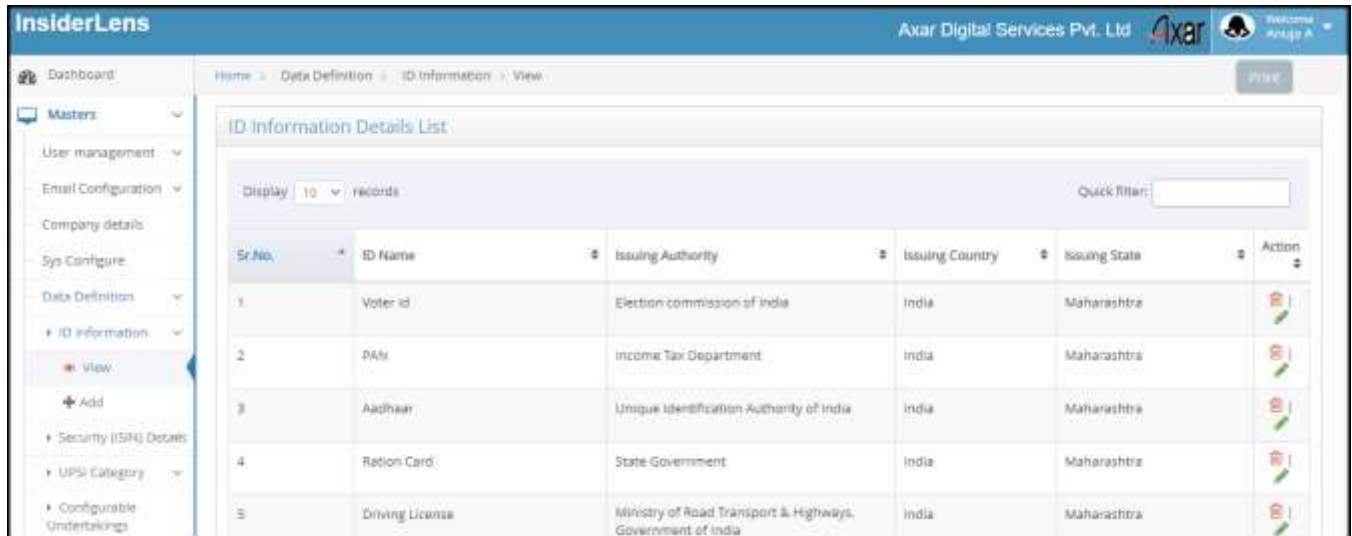

Figure 5.1: ID Information View

Adding ID Information

Only Compliance Officer can add ID Information using the “Add” tab. Under this tab, CO would be able to specify the basic information of acceptable IDs under Company policy as shown in figure 5.2 below.

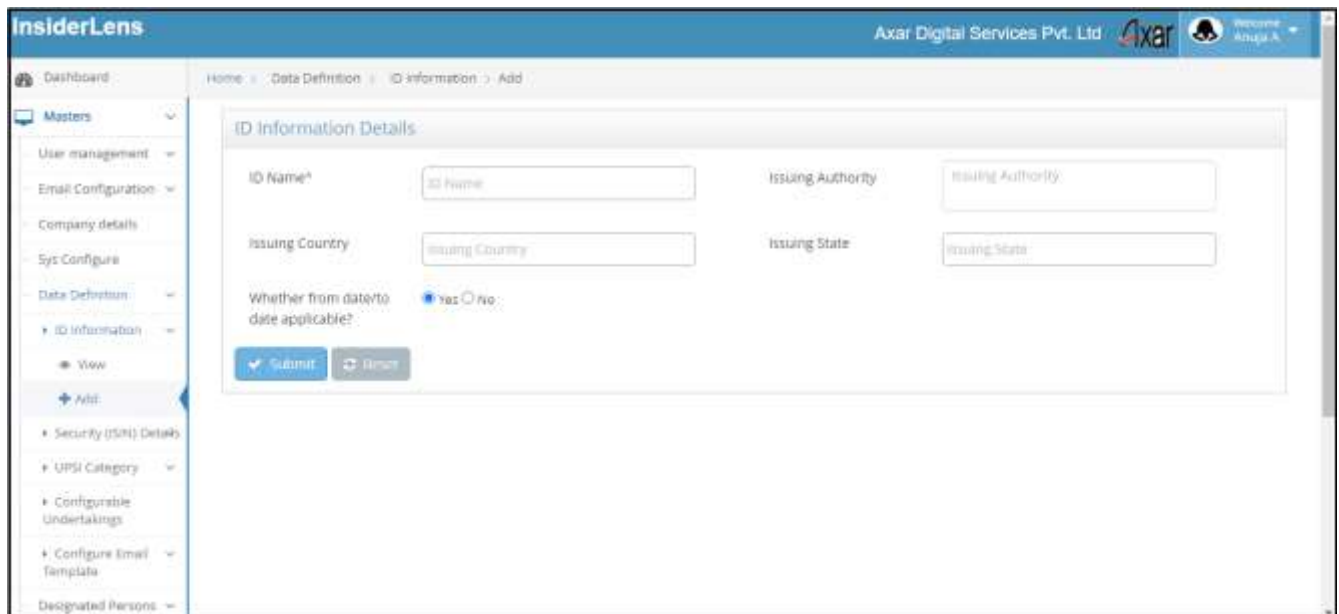

Figure 5.2: ID Information Add screen

Viewing Security (ISIN) Details

Under this tab, the CO can add the listed securities of the Company with its Instrument id allotted by the stock Exchanges i.e. International Securities Identification Number (ISIN). The CO can view/edit/delete all the security information created by him as shown in the figure 6.1 below.

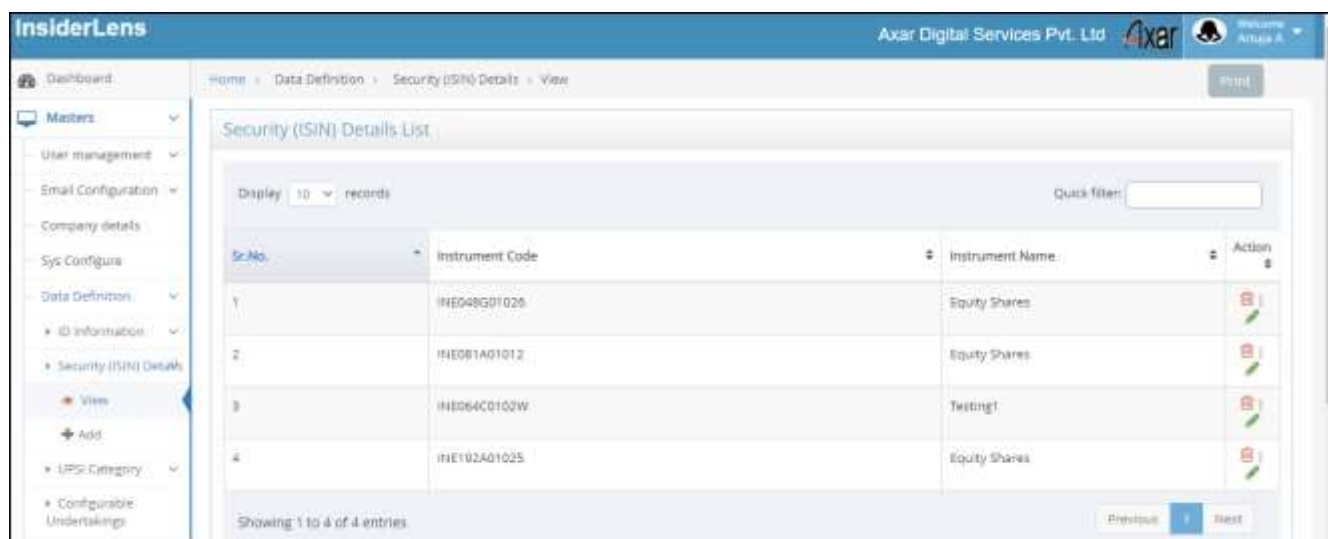

Figure 6.1: Security (ISIN) details View Screen

Adding Security (ISIN) Details

Under Security (ISIN) details, CO can specify the securities issued and add the instrument code of the securities issued by the Company as shown in figure 6.2.

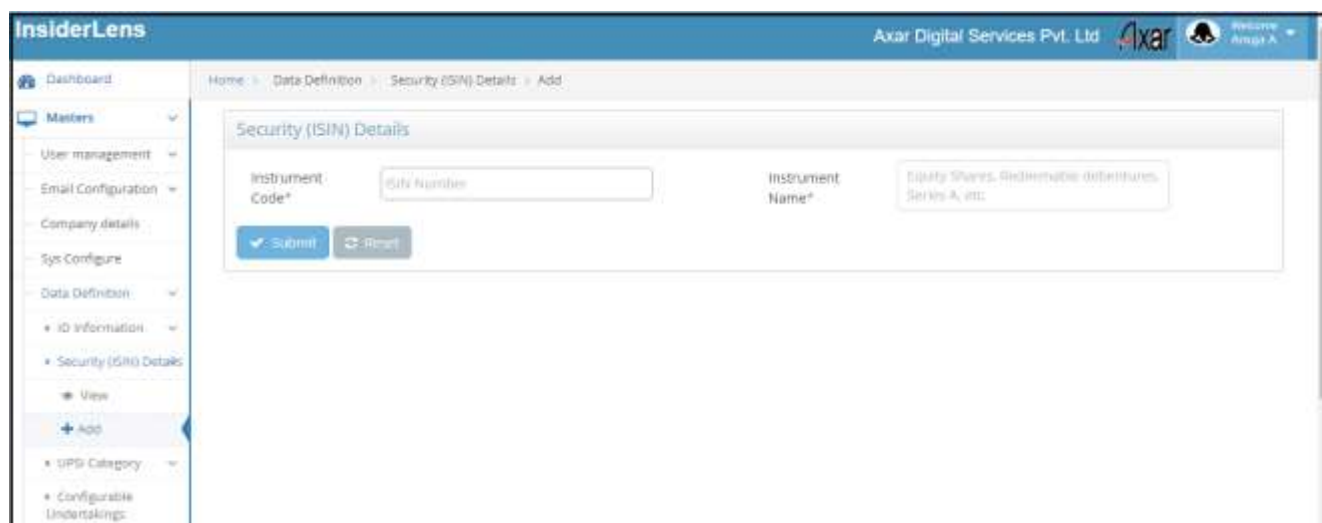

Figure 6.2: Security (ISIN) details Add screen

Viewing UPSI Category

Under the UPSI Category tab, CO can specify the various categories of UPSI so that users while adding the UPSI can select the relevant category of UPSI, from the list available under this tab. The CO can view/edit/delete the UPSI Category details. all the List of UPSI categories is shown in figure 7.1 below.

Sr.No.	UPS Category	Action
1	Financial results	
2	Dividends	
3	Change in Capital structure	
4	Changed in key managerial personnel	
5	Mergers, demergers acquisitions etc	

Figure 7.1: List of UPSI Category View screen

Adding UPSI Category

Under this UPSI Category add tab, CO can specify additional UPSI Categories, as shown in figure 7.2.

Figure 7.2: Add Screen of UPSI Category

Viewing Configurable Undertakings

Provision for CO to edit/delete the configurable declarations/undertakings (I agree) texts for various tabs.

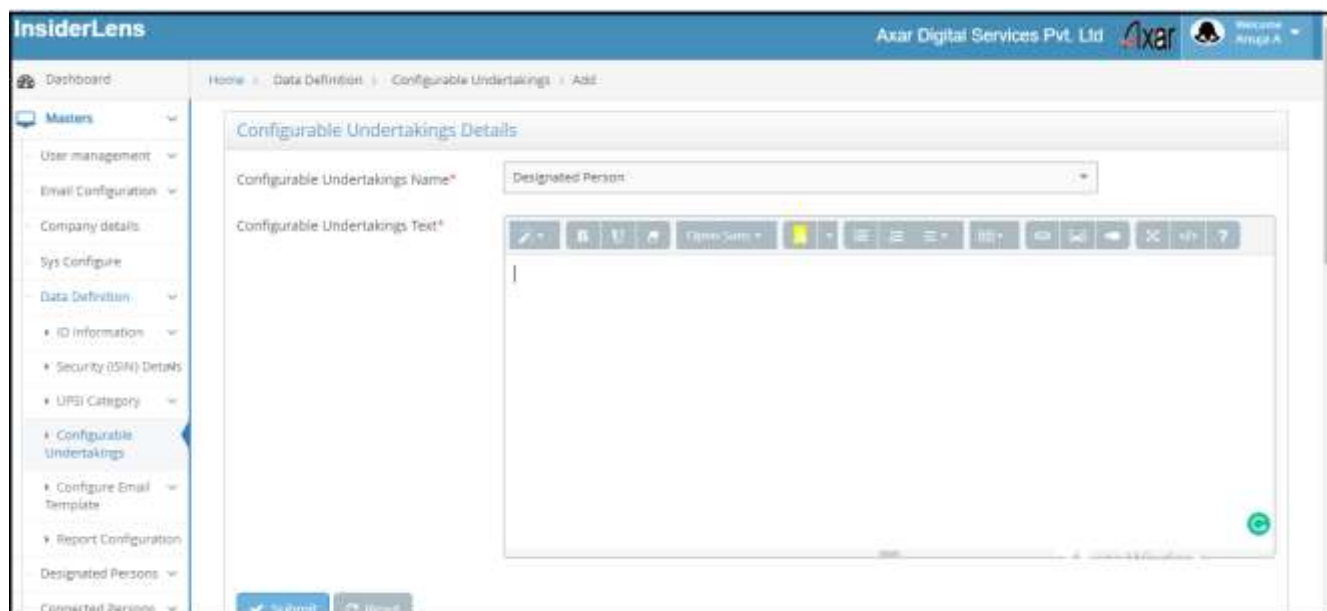

Figure 8.1: Configurable undertakings list

Viewing Configure Email Template

Under the Configure Email Template > view tab, CO can view /edit the configured email templates such as email body and email subject on various actions/events. All the list of configured email templates is shown in below figure 8.2 a.

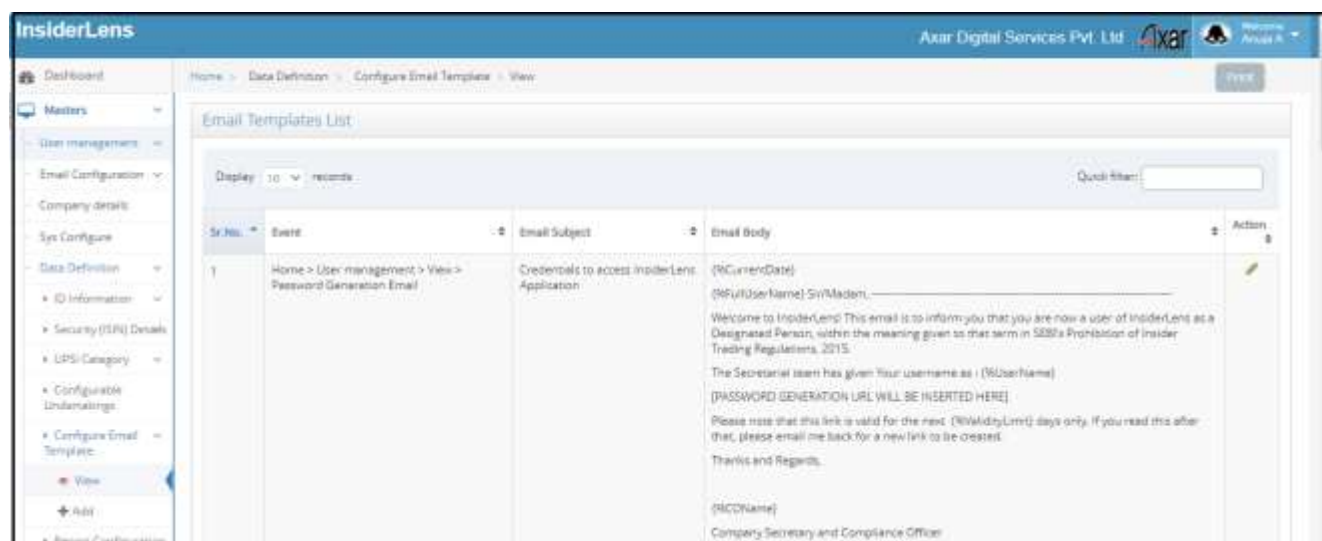

Figure 8.2 a: List of Configure Email Template

Adding Configure Email Template

Under this tab, CO can configure the email templates on various actions of system as shown in below figure 8.2 b.

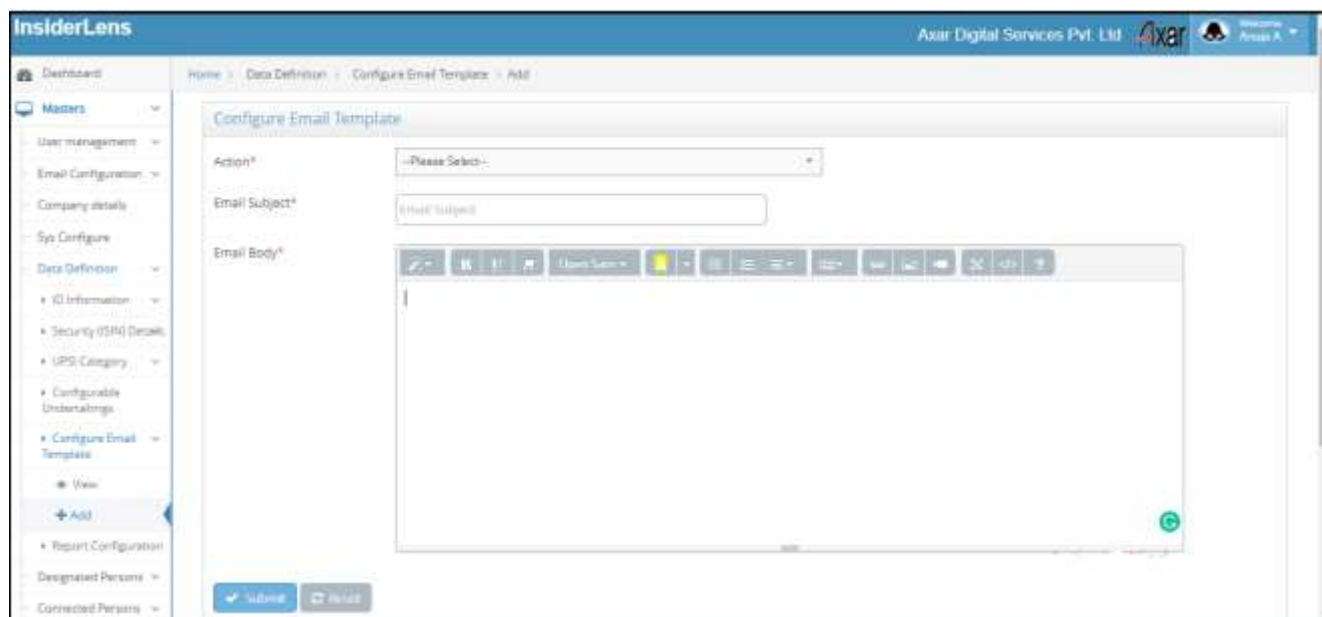

Figure 8.2 b: Add screen of Configure Email Template

Viewing Report Configuration

Under the Report Configuration > view tab, CO can configure InsiderLens report's column heading as per his/her requirement.

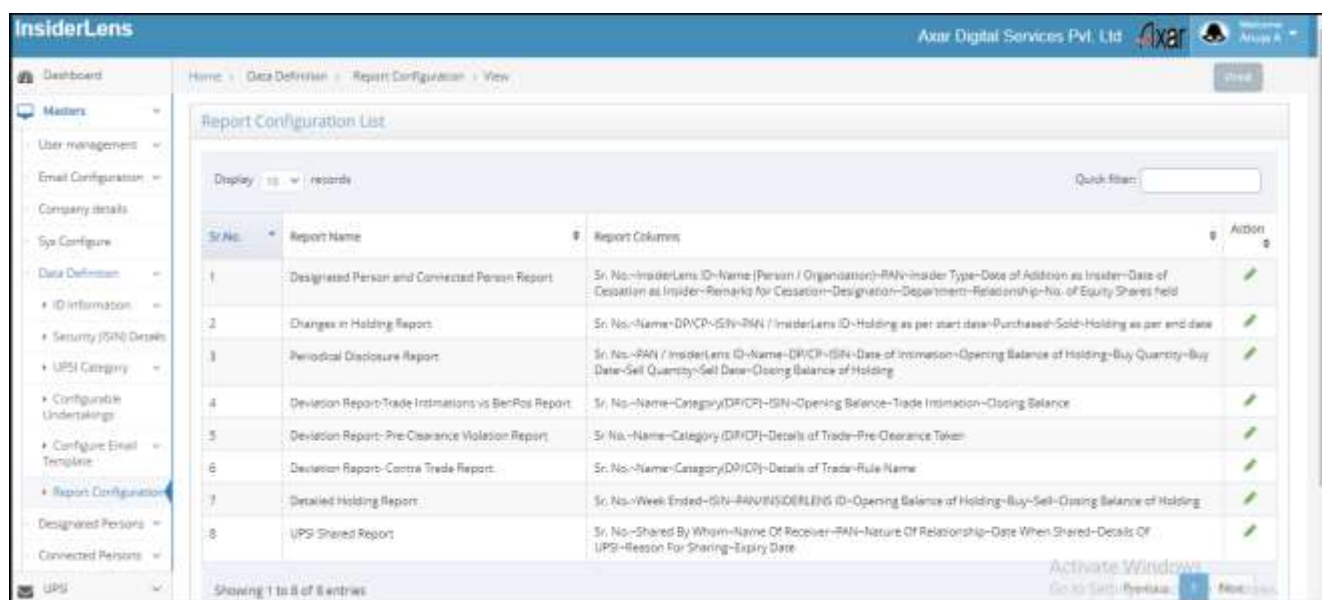

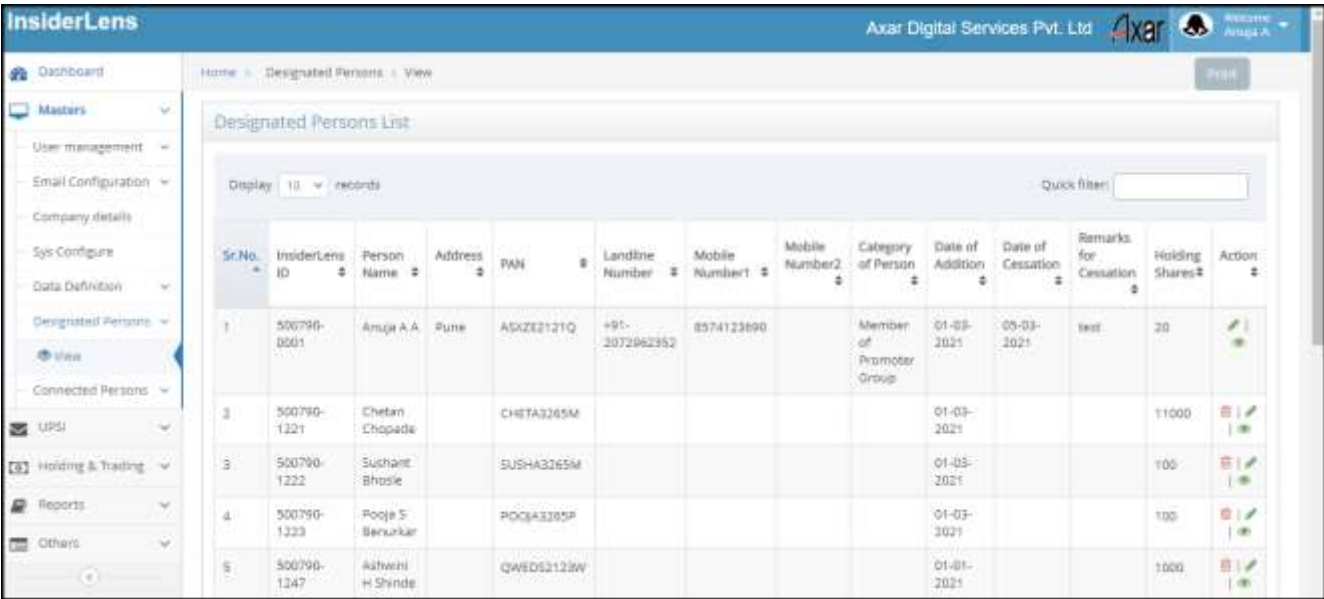

Figure 8.3: List of Report Configuration

Managing designated person

Designated Person (DP) as per SEBI (PIT) Regulations means any Promoter, Director, relatives of Director, Senior Management Officials etc. as defined under the Company's Code of Conduct. Whoever, so defined under the Code, would be termed as Designated Person for the purpose of these regulations.

Viewing Designated Person

For CO Login, the CO would be able to view the names and details of all designated persons added in the System. The details would include the basic details, designation, department, ID details, educational and Past employment details. The CO can only make the changes to the fields which are entered while creating DP users when there is a change required and DP has to enter the other basic details requested by edit action on the same page. Refer figure 8.4 below.

Managing Connected Person

Connected Person means any person who is or has been associated with the Company or a DP for six months prior, in any capacity and has direct or indirect access to Unpublished Price Sensitive Information (UPSI). Such Connected Person can include any officer or employee of the Company or person who holds any position between himself and the Company whether temporary or permanent, any banker of company or any other third-party providing services to company. Connected Person can also include any other person as defined under Code of Conduct of Company under PIT Regulations.

Connected Persons are categorized into three types: OE (Other Entities), IR (Immediate Relatives), MFR (Material financial relationship) and can be seen in one view i.e. Connected Person > View.

Viewing Connected Person

For CO Login, the CO would be able to view/edit the details of all the Connected Persons added in the system by herself/ himself. And CO can View the details of all Connected persons added by other DPs.

S.No.	InsiderLens ID	Organization Name	Person Name	Address	CP(OE/CP(MFR)/CP(MFR))	PAN	Mobile Number	Employee	Added By	Holding Shares	Action

Figure 8.5: For CO Login -: CO view of Connected Person List

Adding Connected Person

CO can add the name and details of all connected persons related to them. The details would include the basic information, designation, department, ID details of Connected Person. Below figure shows the 'Add' screen for connected person. For CO login can add the connected person details in the form of 3 subcategories i.e. Other Entities (OE), Immediate Relatives (IR), Material Financial Relationships (MFR).

While inserting connected person (IR/MFR), there is an option 'whether employee or not'. If you select 'NO' then automatically options of designation and department will be frozen.

Also, CO can be able to add **Common Connected Persons (CP)** with whom they are connected (who has the same PAN). Here while adding common CP, all the data related to him/her will be imported from previous DP's login where the same person has already been added as a CP(OE/IR/MFR).

After every login from CO profile, system **sending a reminder** to the CO via an Excel sheet which contains a list of all DPs who have not added at least one CPs of data in the last two months.

Adding Connected Person (Immediate Relatives)

As per PIT Regulation “Immediate Relative (IR)” means a spouse of a person, and includes parent, sibling, and child of such person or of the spouse, any of whom is either dependent financially on such person, or consults such person in taking decisions relating to trading in securities.

CO can add the name and details of all their IRs. Such details would include the basic information, designation, department, ID details etc.

Figure 8.5a below shows the Add screen of Connected Person (Immediate Relatives).

Provision to add “Guardian’s PAN” number, if connected person (Immediate relative) is **Minor**.

The screenshot displays the 'Add immediate relatives screen' within the InsiderLens application. The interface includes a top navigation bar with the 'InsiderLens' logo and 'Axar Digital Services Pvt. Ltd.' branding. A left sidebar menu lists various system functions, with 'Connected Persons' expanded to show 'Add immediate relatives (IR)'. The main content area is titled 'CP(IR) Details' and contains a form with the following fields:

Organization Name	Organization Name	Person Name *	Name
Organization PAN	Organization PAN	PAN*	Person PAN
Is Minor CPT?	☐ Yes ☒ No		
Address*	Address	Relationship*	Relationship
Mobile Number1*	Mobile Number1	Mobile Number2	Mobile Number2
Email ID*	Email ID	Landline Number	Landline Number
Date of Addition*	DD/MM/YYYY	Date of Cessation	DD/MM/YYYY
Emp ID	Emp ID		

Figure 8.5a: Add immediate relatives screen

Adding Connected Person (Material Financial Relationship)

As per PIT Regulations “Material Financial Relationship” shall mean a relationship in which one person is a recipient of any kind of payment such as by way of a loan or gift during the immediately preceding twelve months, equivalent to at least 25% of such payer’s annual income but shall exclude relationships in which the payment is based on arm’s length transactions.

CO can add the name and details of all persons with whom they have material financial relationships. The details would include the basic information, designation, department, ID details etc.

Figure 8.5b below shows the ‘Add’ screen of Connected Person (Material Financial Relationships).

The screenshot shows the 'CP(MFR) Details' form in the InsiderLens application. The form is divided into two columns. The left column contains fields for Organization Name, Organization PAN, Address*, Mobile Number1*, Mobile Number2*, Email ID*, Date of Addition* (DD-MM-YYYY), and Emp ID. The right column contains fields for Person Name*, PAN*, Relationship*, Mobile Number2, Landline Number, and Date of Cessation (DD-MM-YYYY). At the bottom, there is a radio button group for 'Whether Employee or Not?' with 'Yes' and 'No' options. The left sidebar shows the 'Connected Persons' menu with 'Material Financial Relationships (MFR)' selected.

Figure 8.5b: Add Material Financial Relationship screen

Adding Connected Person (Other Entities)

The screenshot shows the 'CP(OE) Details' form in the InsiderLens application. The form is divided into two columns. The left column contains fields for Organization Name, Organization PAN, Address*, Mobile Number1*, Mobile Number2*, Email ID*, Date of Addition* (DD-MM-YYYY), and Whether Employee or Not? (radio buttons for Yes and No). The right column contains fields for Person Name, PAN*, Relationship*, Mobile Number2, Landline Number, and Date of Cessation (DD-MM-YYYY). The left sidebar shows the 'Connected Persons' menu with 'Other Entities (OE)' selected.

Figure 8.5c: Add Other Entities screen

Managing UPSI Shared Details

'Unpublished Price Sensitive Information' or 'UPSI' means any information which is not generally available for the public or undisclosed information of the Company or its Securities, that likely could materially affect the price of the Securities and the financial results. Any person in possession of UPSI information are not permitted to trade under the PIT Regulations. For example, UPSI will include information related to the following:

- dividends
- change in capital structure
- mergers, de-mergers, acquisitions, delisting's, disposals and expansion of business and such other

transactions

- changes in key managerial personnel. Etc.

Provided access to any CP(OE) added by any DP to all DPs while creating/sharing UPSI. CO can share UPSI details with all **DPs** in the system along with his/her connected **CP (IR)s** and **CP (MFR)s** and with **all CP (OE)s**. I.E. Connected Persons Other Entities added by any DP.

Viewing UPSI shared details with insiders

For CO Login, CO can view the detailed list of all UPSI shared details as added by DPs in the system along with the names of the other persons to whom such information is shared with. The CO can further share the information with other DPs and CP(OE/IR/MFR) s.

Further, shared UPSIs are can be again shared with other DPs/CPs. Only original UPSI sharer can edit the shared UPSIs and enter the '**Publication / Publishing Date**' and **undertakings** if any. **Search** feature is also provided to search the specific UPSIs with particulars as shown in below figure 9.1.

In the "Record of UPSI Shared with Insiders" tab, **Highlighted Records are those against which TWC notice has not been sent yet**. To issue the TWC Notice, CO just has to click on the Envelope icon under 'Action'. When he clicks on the Envelope icon, Trading Window Closure Notice page opens (Refer 14.1b). CO just has to fill the mandatory fields and issue the TWC notice. After TWC Notice is sent, respective persons will get email notification about TWC notice, and the relevant UPSI records will no longer be highlighted.

Figure 9.1: List of UPSI shared details

Single UPSI originator to multiple receivers. CO can send one TWC notice to all and group of DPs and/or CPs. TWC/TWO notice email to be send in one go for commonly shared UPSI.

Adding UPSI shared details

The tab is available to only those Users i.e. CO and DPs to whom one more role of **UPSI Originator** is

assigned. Only CO has the authority to assign the role to any user. If any DP wishes to add details of the UPSI shared, he/she can request the CO to assign the UPSI Originator role. Once assigned, the person would be able to add new UPSI shared details in the system. By default, if the company chooses all DPs can be assigned this role in advance. The Add window is as shown in given below figure 9.2.

The screenshot shows the 'Add' window for 'Record Of UPSI Shared With Persons' in the InsiderLens application. The left sidebar contains a navigation menu with options like Dashboard, Masters, UPSI, UPSI Shared Details, View, Add, Trading Window Closures, Holding & Trading, Reports, and Others. The main content area is titled 'Record Of UPSI Shared With Persons' and contains the following fields:

- Date of sharing UPSI*: DD-MM-YYYY
- Persons shared with*: --Select person(s) for share information-- (with 'Select all' and 'Deselect all' buttons)
- Details of UPSI shared*: Details of information shared
- Legitimate purpose for sharing UPSI*: Legitimate purpose for sharing UPSI
- Sub Purpose: Sub Purpose For Legitimate Business Purpose
- Category Of UPSI*: --Select Category Of UPSI--
- Publication / Closure Date: DD-MM-YYYY

Figure 9.2: UPSI shared details add Screen

Managing Trading Window Closure

Trading Window Closure (TWC) is the period during which specified insiders, or all insiders in the event of the regular quarterly result-declaration closures, are prohibited from trading in the securities of the company. The trading window shall be closed when the compliance officer determines that a designated person or class of designated persons can reasonably be expected to be in possession of unpublished price sensitive information. The CO should inform the DPs about the window closure period to prevent them from trading in the securities and violating the regulation.

“System will send a daily Email reminder for Quarterly Trading Window Closure – starting 6 days before Quarter-close date - and send a daily reminder till the day before the Quarter-close date”.

Reminder 6 days before the Quarter ending date. In InsiderLens, the system sends quarter-end reminder to CO. This reminder is sent daily beginning 6 days before Quarter-close date - and goes on till the day before the Quarter-close date. The four Quarter-close dates are - March 31, June 30, September 30, and December 31. For these four dates, Window Closure has to be announced respectively from, March 30th, June 29th, September 29th and December 30th. So, the system starts to send reminders 5 days before these days, or 6 days before the actual Quarter-close day.

Viewing trading window closure

For CO Login, the CO can view the history of all the trading window closures intimated with the date of intimation and purpose of intimation. Once added in the system, trade intimation cannot be deleted.

View for CO Login is as shown in given below figure 10.1

Sr.No.	Closed From Date	Closed Until/Open From Date	Purpose of closure	Intimated To	Intimated On	UPSI Details	Action

Figure 10.1: List of trading window closure.

Adding trading window closure

Only Compliance officer can add the intimations for trading window closures together with dates of closure and purpose of closure of window. She/he can define to whom such window closure pertains and if required he/she can edit the text in the mail body of TWC notice upon submission as shown in given figure 10.2.

Managing Holdings Disclosure

Disclosures in the system means disclosure of information of securities held by CO/ CP. The user can add information related to securities held by them. The information includes the instrument id, number of shares held and type of disclosure (Annual/Half Yearly/Quarterly/Monthly/Fortnightly/Weekly). The CO would be able to add disclosure for their own holdings along with the disclosures of their CP (IR).

Viewing Holdings Disclosure Details

For CO Login, the CO will be able to view disclosures given by all DPs for themselves and disclosures added on behalf of their CP(IR) would be as shown in Figure 11.1 below.

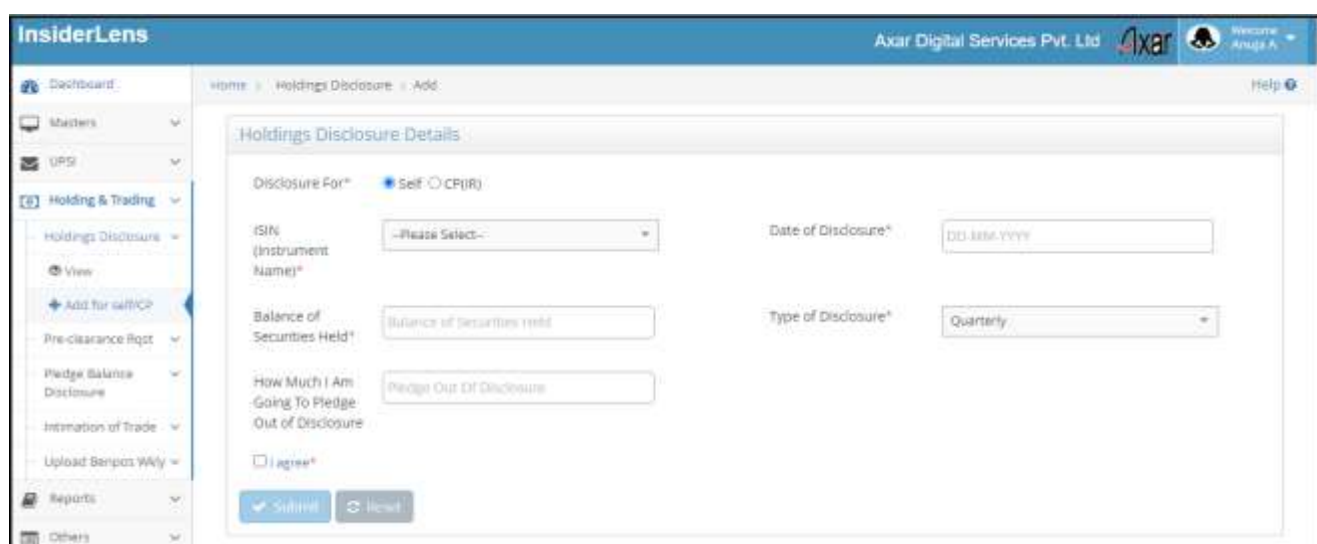

Sr.No.	Name Of Person	ISIN (Instrument Name)	Disclosure Date	Balance of Securities Held	Type of Disclosure	Pledge Out of Disclosure	Added by
1	Veena A	INE048G01026 (Equity Shares)	11-05-2021	1,000	Quarterly	500	Anuja A A

Managing Pre-clearance Request

Under Pre-clearance Request tab, the DP would be able to submit pre-clearance requests to CO and the CO would be able to approve/disapprove/partially approve the same.

Viewing Pending Pre-clearance Request list

For CO login, the CO would be able to view the list of all requests received from DPs for approval. Under the same tab, the CO can take the desired action of approving, disapproving or partial approving the requests, while mentioning adequate reason for Disapproval or Partial Approval. While partial approving the request, the CO can also specify the quantity approved from the requested quantity. Once, the request is submitted to CO, the CO does not have any authority of deleting or editing any request.

Figure 12.2: Pre-clearance request View

Adding pre-clearance request

Under the Pre-clearance Request Add tab, the CO can submit pre-clearance request to Secondary approver. The details to be added when making a pre-clearance request is type of security, quantity requested, type of trade i.e. Buy, Sell or Pledge, proposed last date of trade, Estimated Transaction Value etc.

If CO/DP holds UPSI and while requesting pre-clearance and If selects **Possess UPSI** as 'No' despite of holding, then system throws an alert saying "You are holding UPSI details. Please confirm it." And after confirming by clicking OK, CO redirects to UPSI shared details view tab. Otherwise Possess UPSI option is on 'No' by default for not holding.

Managing Pledge Balance Disclosure

Share pledging means taking a loan against the shares that one holds. The promoters can pledge their shares in order to meet various business or personal requirement. CO or DP can add their pledging details under this tab.

Viewing Pledge Balance Disclosure

Under the View tab, CO can see all the records of DPs and their pledging details for his reference, and CO can edit/delete the records made by himself/herself or other DPs.

Managing Intimation of Trade

As per the PIT Regulations, the Insider should intimate the Company about specific trades defined under Reg. 7 within two days of undertaking the trade. Under this tab, the CO or the DP can intimate details of the trade as and when undertaken. DP can also add trade intimations for their CP(IR)s as well. Beyond the Reg 7 requirement of informing the CO, the company may require all DPs to inform the CO about all trades, to prevent (and where too late, identify and report) possible violations of regulations relating to Contra Trade and breaching the Rs 10 lakh trading Ceiling.

80% threshold limit alert to DP. This is depending upon the value set in the Threshold details provided on **Company Details Tab**. The system sends a limit alert to the DP when the designated person exceeds 80% of the threshold limit by doing entries in trade information.

Viewing trade intimation

CO can view the trade intimation records of all the DPs and their CP(IR)s so that he can get clear idea about shareholdings of various DPs and CPs

Sr.No	Trade Intimation ID	Intimation entered for Self/CP	Date of Intimation/Trading	Date of Intimation	ISIN (Instrument Name)	Intimation Entered By	Transaction Types	Mode of Transaction	Stock Exchange	Quantity	Value	Pre-clearance Intimation Obtained is not same as system date	Reason why Date of Intimation is not same as system date	Opening Balance of Holding	Closing Balance of Holding

Figure 14.1: List of trade intimations

Adding trade intimation

Under the Add Trade Intimation, the CO or the DP has the option of adding trade intimation either for himself/ herself or for his/her Connected Person (Immediate Relatives). The CO/DP can also inform in the same trade intimation whether pre-clearance for the trade was obtained or not.

Figure 14.2: trade intimations add screen

Managing Upload BenPos Weekly

BenPos means Beneficiary Position. It refers to a list of beneficiaries/beneficial owners (the shareholders of a company, who are holding shares in demat form) which is provided by a Depository viz. NSDL/CDSL to the RTA (Registrar and Share Transfer Agent) of the Company or the Company, if no RTA is appointed. The CO receives the BenPos details on a weekly basis which she/he can upload in the system. The uploaded BenPos would provide the shareholding of the shareholders as on the date of BenPos. The same is required by CO to keep track of trading by DPs and ensure the same are reported on a timely basis by DPs.

Viewing BenPos list

CO can upload/view/delete the records of the uploaded BenPos for a particular date as shown in given below figure 15.1. The same tab is not available for DP Login.

Figure 15.1: List of BenPos

Adding or Uploading BenPos

CO should upload weekly BenPos into the system. The BenPos is usually generated by the RTA of the Company, or if no RTA is appointed by the company then maintained by itself. The BenPos should be uploaded for a particular date. While adding the BenPos details into the system, the CO should follow the sample format provided. BenPos details matching the PANs/InsiderLens Ids of DP/CP/CO will get stored in the system. CO can upload Benpos with **5 to 6 Lakh records** by sample format provided in the software without any interruption.

CO can also upload Benpos sheet which is received from **RTA (Link in Time)** directly by doing necessary changes mentioned on the Benpos upload > Add tab.

NSDL option for uploading Benpos sheet. Now user can add benpos data in NSDL format.

Figure 15.2: BenPos Upload Screen

The list of records which is uploaded in the BenPos sheet must match with the list of users in the system.

Managing Reports

Reports tab allows to generate various reports based on the information stored throughout the system. This tab enables to keep a track of all the trading of DP and bring into notice any violation to the compliance of PIT Regulations. The various reports that can be generated from the system are

- ✓ Designated Person and Connected Person report
- ✓ Changes in holding
- ✓ Periodical disclosure
- ✓ Quarterly monitoring report
- ✓ Deviation report:
 - ✓ Trade Intimations VS BenPos
 - ✓ Pre-clearance Violation
 - ✓ Contra Trade.
- ✓ Detailed holding report
- ✓ UPSI Shared Report

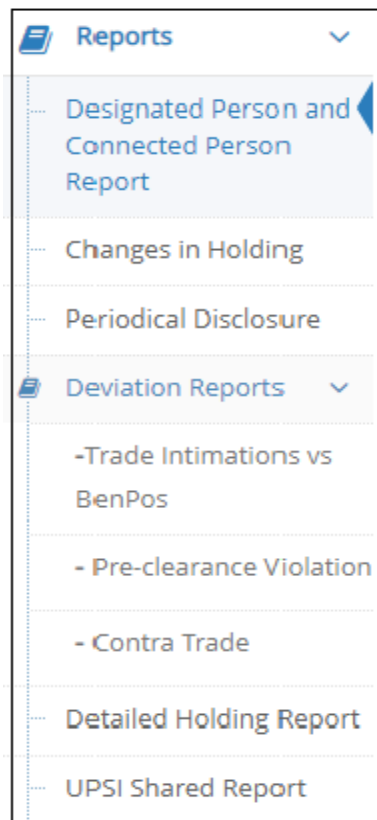

Figure 16.1: List of reports

➤ **Designated Person and Connected Person Report**

- Insider report gives detailed list of information of all the insiders i.e. DPs, CPs added in system for a selected time period. Insider report generated from DP login will generate record for the information for that particular DP.
- It shows the details of all Insiders who has **Date of Addition** and **Date of Cessation** as insider between from date and to date

Figure 16.2a: Designated Person and Connected Person report generate screen

➤ **Changes in holding Report**

- Changes in Holding Report will provide change in holdings i.e. details of increase/decrease in the shareholding based on the uploaded BenPos in the system, for a user defined time period.
- The report generated from DP Login will give the DP and his/her CPs list of changes in her/his own shareholdings.
- Required Data:** BenPos sheet should be uploaded into system.
- Holding as per start date** is if last BenPos shares before given From date is available otherwise it will be zero. And **Holding as per end date** is last BenPos shares before given To date.
- Addition in shares is “Addition of shares buy” and Reduction in shares is “Addition of shares sell”.

➤ Deviation Reports

- Under the Deviation Report, any deviation in the information intimated and actual holding of the insider as per Bepos would be highlighted based on various rules.
- It shows difference between trade intimation and BenPos shares for every ISIN. It is divided into three categories i.e. **Intimations Vs BenPos, Pre-clearance Violation Report, Contra trade.**

➤ Intimations Vs BenPos Report

- In the Trade Intimations vs BenPos report, shows the variation in Trade intimation and BenPos. If any variation in Intimation and BenPos, it comes in the report.
- Compare weekly BenPos shares balance with trade intimation till BenPos date.
- Required Data:** Weekly BenPos should be uploaded and Trade intimation should be given by DP's and their respective CP's
- Opening Balance
- Benpos: Benpos shares balance before from date.
- Trade Intimation: Disclosure and intimation balance before from date.
- Trade Intimation- Shows details of trade intimation transactions
- Closing Balance: closing balance till particular benpos date.

User Manual

By clicking on this tab Compliance officer can view the InsiderLens user manual which provides detailed documentation that how to use the InsiderLens software.

License Agreement

The document available under this tab contains the Software License Agreement between Axar Digital Services Pvt Ltd (the licensor) and your company (the licensee) for your reference.

Renewal

InsiderLens is used by your company under a periodic license. When the license period is coming to an end, the software will send you a notification email about the expiration date. You are requested to contact Axar regarding the license renewal and upon completion of the due commercial process, the license validity is extended by Axar by providing a 'renewal key' to your company.

Uploading this renewal key file under this tab will make the necessary modification inside the software in order for you to continue the use of InsiderLens after the expiration date.

If you have not completed the renewal process on or before this expiration date, all other parts of the InsiderLens software will stop functioning until a valid renewal key is uploaded into this tab.

Below figure- 19.1.can give the provision to CO to enter the valid renewal token

Sr.No.	Subscription From Date	Subscription To Date	Subscription Plan	Number of Active DP
